PREAMBLE

Introduction

The ICT Sector stakeholders comprising the Broadcasting, Electronics, Information Technology and Telecommunications sub-sectors; together with participants from the social partners, namely Government, Labour, Community, and ICASA, initiated a process of developing a Black Economic Empowerment Codes for the ICT Sector.

The Need for Economic Empowerment

- Under the previous apartheid system, a plethora of policies and legislation was promulgated

  with the sole objective of denying black people, including black women, access to and control of South Africa’s economic productive resources and skills based purely on race and gender considerations;

- More than two decades after the demise of this apartheid system, and in spite of the promulgation of a broad range of policy and legislative instruments introduced by the democratic Government aimed at redressing the imbalances of the past, the majority of South Africans are still excluded from ownership and control of economically productive assets and possession of strategic skills to the detriment of economic development, employment creation and poverty eradication;
• Growth and prosperity in South Africa’s economy has not been realized to its full potential due to a lack of meaningful participation by the majority of black South Africans, including black women, in the national economy, and particularly in the ICT sector;

• The Broad Based Black Economic Empowerment Act 53 of 2003 (BBBEE Act) and government’s generic Black Economic Empowerment Codes of Good Practice, aims to address inequities resulting from the systematic exclusion of black people from meaningful participation in the economy. The ICT Code of Good Practice aims to do this for the ICT sector.

ICT Sector Resolution

Recognising the cross-cutting nature of ICTs and its role in the social and economic development of our country;

Therefore, we, the ICT Sector stakeholders, resolve and commit to:

• The objectives of the BBBEE Act and to promote its effective implementation in the ICT sector;

• Bridge the “digital divide” by actively promoting access to ICTs;

• Stimulate and support growth in the ICT sector;

• Advance economic and social transformation in the ICT sector;

• Contribute towards the reduction of unemployment and poverty alleviation;

• Support skills development and training initiatives;

• Foster equity and address the legitimate economic aspiration of all South Africans;

• Provide an enabling environment conducive to transparency, fairness, and consistency when adjudicating on matters related to BEE in the ICT sector; and

• Comply with the requirements of the ICT Sector Code as defined hereunder and where possible meet and exceed targets across the sector.

Having initiated the process of developing the BEE CODE for the ICT sector, we therefore propose this ICT Sector CODE to be gazetted as a Code of Good Practice for the ICT sector in terms of Section 9(5) of the BBBEE Act, (BBBEE Act 53 of 2003), before it is finally gazetted as a Sector Code in terms of Section 9 (1) of the BBBEE Act.
Once published in the Government Gazette as the Sector Code, it shall remain in effect until amended, substituted or repealed under section 9 of the Act. The Minister of Telecommunications and Postal Services shall review the ICT Sector Code following the end of the tenth year following the commencement date of this statement; despite the aforementioned, annual reviews shall take place to monitor the implementation of B-BBEE throughout the economy.

ICT CODE SERIES 000: FRAMEWORK FOR MEASURING BROAD-BASED BLACK ECONOMIC EMPOWERMENT

STATEMENT 000: GENERAL PRINCIPLES AND THE SCORECARD

Issued under section 9 of the Broad-Based Black Economic Empowerment Act of 2003 as amended from time to time.

Arrangement of this statement

1. Objectives of this statement
2. Key principles
3. Application of the Draft ICT Sector CODE
4. Eligibility as an Exempted Micro-Enterprise
5. Eligibility as a Qualifying Small Enterprise
6. Start-up enterprises
7. The Elements of B-BBEE in terms of the Scorecard
8. The ICT Sector Scorecard
9. Enhanced recognition for certain categories of black people
10. Framework for the Accreditation of BEE Verification Agencies
11. Transitional period
12. Adjustment of thresholds
13. Amendments and Duration of the ICT Codes
1. **Objectives of this statement**

The objectives of this statement are to:

1.1 Specify interpretative principles of B-BBEE:

1.2 Specify the application of the ICT Sector CODE and the basis for measurement under the ICT Codes;

1.3 Specify the qualifying thresholds for businesses to qualify as Exempted Micro-Enterprises (EME) or Qualifying Small Enterprises (QSE);

1.4 Specify the method of measuring start-up enterprises;

1.5 Specify the elements of B-BBEE measurable under the Scorecard;

1.6 Specify the Scorecard;

1.7 Specify the basis for determining compliance by entities with the ICT Sector Code;

1.8 Define the duration for the applicability of the Draft ICT Sector Code.

2. **Key principles**

2.1 The fundamental principle for measuring B-BBEE compliance is that substance takes precedence over legal form.

2.2 In interpreting the provisions of the ICT Sector Code any reasonable interpretation consistent with the objectives of the Act and the B-BBEE Strategy must take precedence.

2.3 The basis for measuring B-BBEE initiatives under the ICT Sector Code is the B-BBEE compliance of the measured entities at the time of measurement.

2.4 Any misrepresentation or attempt to misrepresent any enterprise's true B-BBEE Status may lead to the disqualification of the entire scorecard of that enterprise.

2.5 Initiatives which split, separate or divide enterprises as a means of ensuring eligibility as an Exempted Micro-Enterprise, a Qualifying Small Enterprises or a Start-Up Enterprise are a circumvention of the Act and may lead to the disqualification of the entire scorecard of those enterprises concerned.

2.6 Any representation made by an Entity about its B-BBEE compliance must be supported by suitable evidence or documentation. An Entity that does not provide evidence or documentation supporting any initiative, must not receive any recognition for that initiative.
2.7 Wherever a Standard Valuation Method applies to measuring an indicator, the same standard should apply, as far as reasonably possible, consistently in all other applicable calculations in this statement.

2.8 Where the ICT Sector Code is silent on certain provisions, the provisions of the Generic Code shall take precedence.

3. Application of the ICT Sector Code

3.1 The following entities are measurable under the ICT Sector Code:

3.1.1 This Sector Code applies to all persons, organisations and entities operating in the ICT Sector in South Africa;

3.1.2 All public entities listed in schedule 2 or schedule 3 (Parts A and C) of the Public Finance Management Act that fall within the ICT sector;

3.1.3 any public entity listed in schedule 3 (Parts B and D) which are trading entities which undertake any business with any organ of state, public entity or any other Enterprise that fall within the ICT sector; and

3.2 The basis for measuring the B-BBEE compliance of an entity in terms of paragraph 3.1 is-

3.2.1 Paragraph 4, in the case of an Exempted Micro-Enterprise (EME);

3.2.2 The QSE statements in Code [8]600, in the case of a Qualifying Small Enterprise (QSE);

3.2.3 The Scorecard, in the case of other enterprises.
[ 4. Eligibility as an Exempted Micro-Enterprise

4.1 Any enterprise with an annual Total Revenue of R 5 million or less qualifies as an Exempted Micro-Enterprises.

4.2 Exempted Micro-Enterprises are deemed to have B-BBEE Status of “Level Four Contributor” having a B-BBEE procurement recognition of 100% under paragraph 6.3.

4.3 Despite paragraph 4.2, an Exempted Micro-Enterprise qualifies for a promotion to a B-BBEE Status of “Level Three Contributor” having a B-BBEE procurement recognition of 110% under paragraph 6.3 if it is – more than 50% owned by black people or by black women.

4.4 Exempted Micro-Enterprises are allowed to be measured in terms of the QSE scorecard should they wish to maximise their points and move to the next procurement recognition level.

4.5 Sufficient evidence of qualification as an Exempted Micro-Enterprise is an auditor’s certificate or similar certificate issued by an accounting officer or verification agency.

5. Eligibility as a Qualifying Small Enterprise

5.1 Any enterprise with an annual Total Revenue of between R5 million and R35 million qualifies as a Qualifying Small Enterprise.

5.2 A Qualifying Small Enterprise must select any four of the seven Elements of B-BBEE for the purposes of measurement under the Qualifying Small Enterprise Scorecard contained in Code [8] 600. Where a Qualifying Small Enterprise does not make a selection, its four best element scores will be used for the purposes of measurement.
6. Start-up enterprises

6.1 Start-up enterprises must be measured as Exempted Micro-Enterprises under this statement for the first year following their formation or incorporation. This provision applies regardless of the expected total revenue of the start-up enterprise.

6.2 Start-up Enterprises are deemed to have a B-BBEE Status of “Level Four Contributor” having a B-BBEE procurement recognition of 100% under this paragraph.

6.3 In order to qualify as a Start-up Enterprise, the enterprise must provide an independent confirmation of its status.

6.4 Despite paragraph 6.1 and 6.2, Start-up Enterprises must submit a QSE Scorecard when tendering for any contract, or seeking any other business covered by section 10 of the Act, with a value higher than R 5 million but less than R35 million. For contracts above R35 million they should submit the scorecard. The preparation of such scorecards must use annualised data.]

7. The Elements of B-BBEE in terms of the Scorecard

7.1 The Ownership Element, as set out in Code series 100, measures the effective ownership of enterprises by black people.

7.2 The Management Control Element, as set out in Code series 200, measures the effective control of enterprises by black people.

[7.3 The Employment Equity Element, as set out in Code series 300, measures initiatives intended to achieve equity in the workplace under the Act, and the Employment Equity Act.]

7.4 The Skills Development Element, as set out in Code series [4] 300, measures the extent to which employers carry out initiatives designed to develop the competencies of black employees.

[7.5 The Preferential Procurement Element, as set out in Code series 500, measures the extent to which enterprises buy goods and services from suppliers with strong B-BBEE procurement recognition levels.]

7.6 The Enterprise and Supplier Development Element, as set out in Code series [6]400, measures the extent to which Enterprises carry out initiatives intended to assist and accelerate the development and sustainability of other Enterprises.

7.7 The Socio-Economic Development and Sector Specific Contributions Element, as set out in Code series [7]500, measures the extent to which enterprises...
carry out general and ICT sector specific initiatives that contribute towards Socio-Economic Development and that promote access to the economy for black people. Two-thirds of such spend must be spent on ICT sector specific initiatives.

8. The ICT Sector Scorecard

8.1 The following table represents the Scorecard and contains the:

8.1.1 Elements of the scorecard:

8.1.2 Weightings, and

8.1.3 Code series reference that specify the mechanisms for measurement and calculation of each of the Elements of the scorecard (Code series 100 – [7]500)

9. **Enhanced recognition for certain categories of black people**

Throughout the ICT Sector Code, various criteria appear which advance the interests of certain categories of black people. These include:

9.1 Black women who should form between 40 and 50% of the beneficiaries of all Elements of the Scorecard: and

9.2 Black people with disabilities, Black youth, Black people living in rural areas and Black unemployed people who must form between 2 and 3% of the beneficiaries of all Elements of the Scorecard.
10. **Framework for the Accreditation of BEE Verification Agencies**

10.1 Verification of BEE compliance is encouraged and to this end, the Department of Trade and Industry dti will from time to time issue clear guidelines on the verification process.

10.2 [SANAS is a national accreditation body that operates in compliance with the requirements for accreditation bodies as defined in the International ISO/IEC Guide 62 and ISO 17011.]

10.3 Accreditation of BEE verification agencies will be conducted by SANAS on behalf of the dti in terms of the accreditation criteria that will be developed, maintained and enforced by SANAS and IRBA Accredited B-BBEE Auditors

10.4 Such Accreditation Standards govern the terms and conditions, on which the Accreditation Body may grant, refuse to grant, revoke or suspend an accreditation of a Verification Agency.

10.5 Those verification agencies wishing to apply for accreditation will do so through SANAS.

10.6 The dti encourages the establishment of an independent industry Body that will provide guidance to the verification industry through the development and maintenance of high quality and reliable BEE verification services.

10.7 The dti together with the relevant Industry Body will from time to time develop Verification Methodology and other relevant practices that will be used as standards by all verification agencies.

10.8 The dti together with the Accreditation Body will implement such mechanisms as may be necessary to ensure that Verification Certificates are accurate and reliable.

10.9 The dti will establish a publicly accessible central database containing the information underlying each verification Certificate.

[11. **Transitional period**

11.1 For the first year after the commencement of the ICT Sector Codes to be gazetted in terms of Section 9 (1) of the BBBEE Act, a measured entity may elect to use -

11.1.1 The ICT Sector Scorecard; or;

11.1.2 The transitional scorecard.

11.2 Thereafter, all B-BBEE compliance measurement under the ICT Sector Codes for Medium and Large enterprises is subject to the use of the ICT Scorecard.
11.3 The transitional scorecard assigns a BEE Status based on the Ownership and Management Control of the entity calculated in terms of the formula below:

\[ A = B \times 1.92 \]

Where

A is the indicative BEE Status during the transitional period

B is the total score achieved under Code series 100 and 200

12. Adjustment of Thresholds

12.1 The Minister of Trade and Industry may, by notice in the Gazette, adjust the thresholds in paragraphs 4 to 6. [Any such changes apply to compliance reports prepared for enterprises after a 12-month period following the gazetting of the adjustment.]

13. Amendments and Duration of the ICT Codes

13.1 The ICT Codes shall be effective and legally binding from the date of gazette to 31st March 2026 with a mid term five year review on the 31st March 2016 or until amended, substituted or repealed under section 9 of the Act.

13.2 The process for the amendment of the ICT Codes will follow the process set out in the Generic Codes for the development of Sector Codes. Any amendments to the Generic Codes must result in a review of the ICT Codes for purposes of harmonisation.

13.3 The Minister of Trade and Industry will review the Generic Codes following the end of the tenth year following the commencement date of the Generic Codes. Despite the aforementioned, annual reviews will take place to monitor the implementation of B-BBEE throughout the economy. If, as a result of such review any changes are made to the Generic Codes, the ICT Codes will also be harmonised with the Generic Codes following the same process set out in 13.2.
STATEMENT 004: SCORECARDS FOR SPECIALISED ENTERPRISES

Issued under section 9 of the Broad-Based Black Economic Empowerment Amendment Act of 2013

Arrangement of this statement

1. Objective of this statement
2. General Principles
3. The Specialised Generic Scorecard.
4. Management Control Specialised Scorecard.
5. Skills Development Specialised Scorecard.
6. Enterprise and Supplier Development Scorecard.
7. Socio-Economic Specialised Scorecard.
8. Specialised Qualifying Small Enterprise Scorecard.
9. Management Control Qualifying Small Enterprise Specialised Scorecard.
10. Skills Development Qualifying Small Enterprise Specialised Scorecard.
11. Enterprise and Supplier Development Qualifying Small Enterprise Specialised Scorecard.
1. **Objective of this statement**

The objectives of this statement are to:

1.1 Provide guidance about the treatment of Ownership for Specialised Enterprises for Broad Based Black Economic Empowerment (B-BBEE) purposes, of:

1.1.1 Companies limited by guarantee;
1.1.2 Higher Education Institutions;
1.1.3 Non-Profit Companies;
1.1.4 Public entities and other Enterprises exclusively owned by organs of State; and
1.1.5 Public Benefit Schemes or Public Benefit Organisations.

1.2 Specify scorecards applicable to Measured Entities subject to this statement.

2. **General principles**

2.1 Every organ of State and public entity must apply any relevant Codes of Good Practice issued in terms of the B-BBEE Act as amended when:

2.1.1 Determining qualification criteria for the issuing of licences, concessions or other authorisations in respect of economic activity in terms of any law;
2.1.2 Developing and implementing a preferential procurement policy;
2.1.3 Determining qualification criteria for the sale of state-owned enterprises;
2.1.4 Developing criteria for entering into partnerships with the private sector; and
2.1.5 Determining criteria for the awarding of incentives, grants and investment schemes in support of B-BBEE.

2.2 Public entities and other enterprises exclusively owned by organs of State are not capable of evaluation of black ownership under Code series 100.

2.3 Higher Education Institutions are not public entities under the Public Finance Management Act of 1999. They are incapable of evaluation of black ownership under Code series 100.
2.4 Companies limited by guarantee and Non-Profit Companies have no shareholding. They are not capable of evaluation of black ownership under Code series 100. This does not imply that companies limited by guarantee and Non-Profit Companies sharing in the ownership of other enterprises cannot contribute towards black ownership to such enterprises as provided for in Statement 100.

2.5 Non-Profit Companies and Public Benefit Organisations generally do not have any beneficial ownership and are incapable of evaluation of black ownership under Code series 100. This does not imply that Non-Profit Companies and Public Benefit Organisations sharing in the ownership of other enterprises as broad-based ownership schemes cannot contribute towards black ownership to such enterprises as provided for in Statement 100.

2.6 Wherever any of the entities listed in paragraphs one and two require evidence of their own B-BBEE compliance, they will use the Specialised Generic Scorecard. If those entities are also Qualifying Small Enterprises, they will use the Specialised Qualifying Small Enterprises Scorecard.

2.7 Entities that are Exempted Micro Enterprises (EME) under this statement are deemed to have a B-BBEE status of “level four”, having a B-BBEE recognition level of 100%.

2.8 Enhanced B-BBEE recognition level for an EME:

2.8.1 Despite paragraph 2.7, an EME that has at least 75% black beneficiaries qualifies for elevation to “Level One Contributor”, having a B-BBEE recognition level of 135%; and

2.8.2 Despite paragraph 2.7 and 2.8.1, an EME that has at least 51% black beneficiaries qualifies for elevation to “Level Two Contributor”, having a B-BBEE recognition level of 125%.

2.9 An EME is only required to obtain a sworn affidavit annually confirming the following:

2.9.1 Annual Total Revenue/Allocated Budget/Gross Receipts of R10 million or less; and

2.9.2 Level of percentage of black beneficiaries.
2.10 Any misrepresentation in terms of paragraph 2.9 above constitutes a criminal offence as set out in the B-BBEE Act as amended.

2.11 Entities that are Qualifying Small Enterprises (QSE) will use the Specialised Qualifying Small Enterprises Scorecard.

2.12 Despite paragraph 2.11, a QSE that has at least 75% black beneficiaries qualifies for elevation to “Level One Contributor”, having a B-BBEE recognition level of 135%.

2.13 Despite paragraphs 2.11 and 2.12, a QSE that has at least 51% black beneficiaries qualifies for elevation to “Level Two Contributor”, having a B-BBEE recognition level of 125%.

2.14 A QSE that has at least 51% black beneficiaries is only required to obtain a sworn affidavit annually confirming the following:

2.14.1 Annual Total Revenue/Allocated Budget/Gross Receipts of R50 million or less; and

2.14.2 Level of percentage of black beneficiaries.

2.15 Any misrepresentation in terms of paragraph 2.14 above constitutes a criminal offence as set out in the B-BBEE Act as amended.

7. THE SOCIO-ECONOMIC DEVELOPMENT FOR SPECIALISED ENTERPRISES SHALL APPLY TO THIS STATEMENT
STATEMENT 004: Scorecards for SPECIALISED Enterprises

Issued under section 9 of the Broad-Based Black Economic Empowerment Act of 2003

Arrangement of this statement

1. Objective of this statement
2. General principles
3. The Adjusted Scorecard
4. The Adjusted Qualifying Small Enterprises Scorecard
5. Important Clarification

1. Objective of this statement

The objectives of this statement are to:

1.1 Provide guidance about the treatment of Ownership for Specialised Enterprises, for Broad-Based Black Economic Empowerment (B-BBEE) purposes, of:

1.1.1 Companies limited by guarantee:

1.1.2 Higher Education Institutions;

1.1.3 Non-profit [Organisations] Companies;

1.1.4 Public entities and other Enterprises [wholly] exclusively owned by organs of State; and.

1.1.5 Public Benefit Schemes; or Public Benefit Organisations

[1.1.6 Section 21 companies; and]

1.2 Specify scorecards applicable to Measured Entities subject to this statement.
2. General principles

2.1 Public entities and other Enterprises wholly owned by organs of state are incapable of evaluation of black ownership under Code series 100.

2.2 Higher Education Institutions are not public entities under the Public Finance Management Act of 1999. They are incapable of evaluation of black ownership under Code series 100.

2.3 Companies limited by guarantee and section 21 companies have no shareholding. They are incapable of evaluation of black ownership under Code series 100. This does not imply that companies limited by guarantee and section 21 companies sharing in the ownership of other Enterprises cannot contribute towards black ownership to such Enterprises as provided for in Statement 100.

2.4 Non-profit Organisations and Public Benefit Organisations generally do not have any beneficial ownership and are incapable of evaluation of black ownership under Code series 100. This does not imply that Non-profit Organisations and Public Benefit Organisations sharing in the ownership of other Enterprises as broad-based ownership schemes cannot contribute towards black ownership to such Enterprises as provided for in Statement 100.

2.5 Wherever any of the entities listed in paragraphs 1 and 2 require evidence of their own B-BBEE compliance, they will use the Adjusted Scorecard. If those entities are also Qualifying Small Enterprises, they will use the Adjusted Qualifying Small Enterprises Scorecard.

3. The ADJUSTED Scorecard

3.1 The following table represents the Adjusted Scorecard and contains the:

3.1.1 Elements of the scorecard;

3.1.2 Weightings, and

3.1.3 Code series reference that specifies the mechanisms for measurement and calculation of each of the Elements of the scorecard (Code series 100 –[7] 500).
3.2 All other terms of statement 000 apply to Measured Entities subject to this statement. mutatis mutandis.

4.2 A Measured Entity, subject to this statement, that is a Qualifying Small
Enterprise must choose any four of the six Elements of B-BBEE against which their B-BBEE compliance will be measured under the Adjusted Qualifying Small Enterprise Scorecard.

5. Important Clarification

The status of Socio-Economic Development Contributions made to any of the types of entities in paragraphs 1 and 2 under Code series 700 is not dependent on such entity’s scorecard result, but rather the nature of the contribution itself and the identity of that contribution’s beneficiaries.]
CODE SERIES 100: MEASUREMENT OF THE OWNERSHIP ELEMENT OF BROAD-BASED BLACK ECONOMIC EMPOWERMENT

STATEMENT 100: THE GENERAL PRINCIPLES FOR MEASURING OWNERSHIP

1. **Objectives of this Statement**

The objectives of this statement are to:

1.1 Specify the scorecard for measuring the ownership Element of Broad-Based Black Economic Empowerment (B-BBEE);

1.2 Define the key measurement principles associated with the ownership Element of B-BBEE;

1.3 Specify the specific measurement principles applicable to various types of Enterprises;

1.4 Specify the specific measurement principles applicable to various types of Equity Instruments;

1.5 Specify the formula for measuring Voting Rights, Economic Interest, Realisation Points and bonus point
2. The Ownership Scorecard

- **2.4.2.2** of Broad-Based Ownership Schemes; or
- **2.4.2.3** Co-operatives]
3. **Key Measurement Principles**

3.1 **General principles:**

3.1.1 An [Enterprise] Entity receives points for participation by black people in its rights of ownership, using the ownership scorecard in paragraph 2. Black people may hold their rights of ownership in a Measured Entity as direct Participants or as Participants through some form of [business] Entity such as:

3.1.1.1 A company [with shares] as defined in the Companies Act of 2008 (as amended):

3.1.1.2 A close corporation:

3.1.1.3 A co-operative:

3.1.1.4 Any form of juristic person recognised under South African law:

3.1.1.5 A partnership or other association of natural persons:

3.1.1.6 A Broad-Based Ownership Scheme:

3.1.1.7 An Employee Share Ownership [Scheme] Programme; and

3.1.1.8 A Trust.
3.2 **SUB-MINIMUM REQUIREMENTS**

3.2.1 A Measured Entity is required to achieve a minimum of 40% on Net Value points (i.e. 8 points) based on Annexure 100 (E) paragraph 4 of this statement.

3.2.2 Non-compliance with this sub-minimum target, as per paragraph 3.2.1, will result in the achieved B-BBEE status level being discounted in accordance with paragraph 3.4 in statement 000.

3.3 **The Flow-Through Principle:**

3.3.1 As a general principle, when measuring the rights of ownership of any category of black people in a Measured [Enterprise] Entity, only rights held by natural persons are relevant. If the rights of ownership of black people pass through a juristic person, then the rights of ownership of black people in that juristic person are measurable. This principle applies across every tier of ownership in a multi-tiered chain of ownership until that chain ends with a black person holding rights of ownership.

3.3.2 The method of applying the Flow-Through Principle across one or more intervening juristic persons is as follows:

3.3.2.1 Multiply the percentage of the Participant’s rights of ownership in the juristic persons through which those rights pass by the percentage rights of ownership of each of those juristic persons successively to the Measured [Enterprise] Entity; and

3.3.2.2 The result of this calculation represents the percentage of rights of ownership held by the Participant.

3.4 **[The] Modified Flow-Through Principle:**

3.4.1 A Measured Entity applying this Modified Flow-Through Principle cannot benefit from the Exclusion Principle

3.4.2 The Modified Flow-Through Principle applies to [any] B-BBEE owned or controlled company in the ownership of the Measured [Enterprise] Entity.

3.4.3 In calculating Exercisable Voting Rights under paragraph 2.1.1. and Economic Interest under paragraph 2.2.1 of the Ownership scorecard the following applies:

3.4.3.1 Where in the chain of ownership, black people have a flow-through level of participation of at least 51%, and then only once in the entire ownership structure of the Measured Entity, [that chain may] such black participation may be treated as if it were 100% black.
3.4.4 The Modified Flow-Through Principle may only be applied in the calculation of the indicators in paragraphs 2.1.1 and 2.2.1 of the ownership scorecard. In all other instances, the Flow-Through Principle applies.

3.5 The Exclusion of specified entities when determining ownership:

3.5.1 When determining ownership in a measured entity, ownership held [directly] by organs of state or public entities must be excluded.

3.5.2 Exclusion of ownership held by organs of state or Public Entities is to be effected before any other ownership discounting methods are to be applied.

3.5.3 In calculating their Ownership score, Measured [Enterprises] Entities must apply the Exclusion Principle to any portion of their Ownership held by Organs of State or Public Entities

3.6 B-BBEE FACILITATOR STATUS

3.6.1 Despite paragraph 3.5.1 and 3.5.3, the Minister of Trade and Industry may by notice in the gazette, designate certain organs of state or Public Entities as B-BBEE Facilitators. In calculating their Ownership score, Measured [Enterprises] Entities must treat B-BBEE Facilitators as having rights of Ownership held:

3.6.1.1 100% by Black People:

3.6.1.2 40% by Black Women:

3.6.1.3 [10%] 20% by black designated groups;

3.6.1.4 Without any acquisition debts; and

3.6.1.5 Without any third-party rights.
3.7 MANDATED INVESTMENTS

3.7.1 When determining ownership in a measured entity, rights of ownership of Mandated Investments may be excluded.

3.7.2 The maximum percentage of the ownership of any measured entity that may be so excluded is 40%.

3.7.3 A Measured Entity electing not to exclude Mandated Investments when it is entitled to do so, may either treat all of that ownership as non-black or obtain a competent person’s report estimating the extent of black rights of ownership measurable in the Measured Entity and originating from that Mandated Investment.

3.7.4 A Measured Entity cannot selectively include or exclude Mandated Investments and therefore an election to exclude one mandated investment is an election to exclude all Mandated Investments and vice versa.

3.7.5 A Measured Entity applying the Exclusion Principle to Mandated Investments cannot benefit from the Modified Flow-Through Principle.

3.8 Recognition of ownership after the sale or loss of shares by black participants:

3.8.1 A Measured Entity is allowed to recognise a portion of black ownership after a black participant has exited through the sale or loss of shares subject to the following criteria:

3.8.1.1 The black participant has held shares for a minimum period of 3 years;

3.8.1.2 Net Value based on the Time Based Graduation Factor as per Annexure 100 ‘E’ As amended from time to time must have been created in the hands of black people:

3.8.1.3 Transformation has taken place within the measured entity using the B-BBEE Recognition Level from the period of entry of black participants to the existing period.

3.8.2 Black participation arising from continued recognition of black ownership cannot contribute more than 40% of the score on the ownership scorecard.

3.8.3 In the case of a sale or loss of shares by the black investor participant, the following additional rules apply:

3.8.3.1 A written tripartite agreement between the Measured Enterprise Entity, the black Participant and a lender must record the loan or security arrangement, unless the Measured Entity is the lender; and
3.8.3.2 The period over which the continued recognition points [were] are allocated or recognised after the sale or loss of shares will not exceed the period over which the shares were held.

3.8.4 The ownership points under this paragraph that are attributable to the Measured Entity will be calculated by multiplying the following elements:

3.8.4.1 The value created in the hands of black participants as a percentage of the total value of the black participants' shareholding in the Measured Entity at the date of the sale or loss of shares [as a percentage of Measured Entity's value];

3.8.4.2 The B-BBEE status of the Measured Entity based on the balanced scorecard at the date of measurement; and

3.8.4.3 The ownership points that was attributable to the Measured Entity on the date of sale or loss of shares.

3.9. Broad-based Ownership Schemes and Employee Share Ownership [Schemes] Programmes

3.9.1 Black Participants in Broad-Based Ownership Schemes and Employee Share Ownership [Schemes] Programmes holding rights of ownership in a Measured Entity may contribute:

3.9.1.1 A maximum of 40% of the total points on the ownership scorecard of the Measured Entity if they meet the qualification criteria set out in Annexure 100(B) and Annexure 100(C) As amended from time to time.

3.9.1.2 100% of the total points on the ownership scorecard of the Measured Entity if they meet the additional qualification criteria set out in Annexure 100(B) and Annexure 100(C) As amended from time to time.

3.10. Private Equity Funds

3.10.1 A Measured Entity may treat any of its ownership arising from a Private Equity Fund as if that ownership were held by black people, where the Private Equity Fund meets the following criteria:

3.10.1.1 [More than 50%] At least 51% of any of the Private Equity Manager's Exercisable Voting Rights associated with the Equity Instruments through which the Private Equity Fund holds rights of ownership, must be held by black people;

3.10.1.2 [More than 50%] At least 51% of profits made by the Private Equity Fund Manager after realising any investment made by it, must by written agreement, accrue to black people;
3.10.2 The term profit in this instance is deemed as profit from the operations of the Private Equity Fund Manager and the carried interest that the Private Equity Fund Manager (and/or its associated entities, provided that at least 51% of the profits of the associated entities accrue to the Private Equity Fund Manager) receives after realising any investment made by it;

3.10.3 The Private Equity Fund manager must be a B-BBEE Owned Company as defined; [and]

3.10.4 [More than 50% of the value of funds invested by any Private Equity Fund must at all times be invested in black owned enterprises that were at least 25% black owned before the investment of the Private Equity Fund.] The Private Equity Fund Manager must seek to invest at least 51% of the value of funds under management in companies that have at least a 30% direct Black shareholding using the Flow-Through Principle.

3.10.5 The Private Equity Fund Manager can facilitate direct Black shareholding at the time of entering into the transaction should the target company not meet the requirement of at least [25%] 30% Black shareholding at the time that the transaction is concluded;

3.10.6 This determination will be made at each measurement date and the status given to the Private Equity Fund Manager will be applicable for a period of 12 months;

3.10.7 In recognition of the fact that it is currently a challenge for Private Equity Fund Managers to find companies to invest in that already have a significant Black shareholding, in practice it should be allowed to achieve the 51% target over a period of time based on the formulation detailed below. (It must be noted that this formulation is in line with that of the Net Value calculation above). [This rule will apply to all investments made after the effective date of this Sector Code.[11 October 2014. The commencement date is the later of 11 October 2014 and the date of establishment of a new fund;]

3.10.8 Within one year from the commencement date, more than 5% of the value of funds invested by the Private Equity Fund must at all times be invested in enterprises that have at least [25%] 30% direct Black shareholding;

3.10.9 Within two years from the commencement date, more than 10% of the value of funds invested by the Private Equity Fund must at all times be invested in enterprises that have at least [25%] 30% direct Black shareholding;

3.10.10 From the first day of the third year and the last day of the fourth year from the commencement date, more than 20% of the value of funds invested by the
Private Equity Fund must at all times be invested in enterprises that have at least [25%] 30% direct Black shareholding;

3.10.11 From the first day of the fifth year and the last day of the sixth year from the commencement date, more than 30% of the value of the funds invested by the Private Equity Fund must at all times be invested in enterprises that have at least [25%] 30% direct Black shareholding;

3.10.12 From the first of the seventh year and the last day of the eight year from the commencement date, more than 40% of the value of the funds invested by the Private Equity Fund must at all times be invested in enterprises that have at least [25%] 30% direct Black shareholding;

3.10.13 From the first day of the ninth year and beyond from the commencement date, at least 51% of the value of the funds invested by the Private Equity Fund must at all times be invested in enterprises that have at least [25%] 30% direct Black shareholding;

3.10.14 It should be noted that the measurement of at least 51% of the value of funds invested by any Private Equity Fund that must be invested in enterprises with at least [25%] 30% direct Black shareholding is to be measured with reference to the cost of the investment made by the Private Equity Fund;

3.10.15 In the case of Private Equity Funds that were fully invested prior to the effective date of this Sector Code [11 October 2014], investments by the fund managers will be considered as being made by Black people if the Private Equity Fund Management entities meet the following criteria:

3.10.15.1 At least 51% of any of the Private Equity Fund Manager’s Exercisable Voting Rights associated with the Equity Instruments through which the Private Equity Fund holds rights of ownership in a Measured Entity, must be held by Black people;

3.10.15.2 At least 51% of the profits accruing to the Private Equity Fund Manager after realizing any investment made by it, must by written agreement, accrue to Black people; and

3.10.15.3 Private Equity Fund Manager must be a B-BBEE owned company.

3.11. [Special rules for certain companies] Not-for-profit Companies (NPCs) and Companies Limited by Guarantee

3.11.1 A Measured Entity may elect to include or exclude [Section 21 companies] NPCs or companies limited by guarantee for the purposes of measuring ownership in terms of this statement;

3.11.2 An [Section 21 company] NPC or company limited by guarantee that houses a Broad-Based Ownership Scheme or an Employee Share Ownership [Scheme] Programme is subject to the provisions governing those types of schemes and not to this paragraph.
3.11.3 When a Measured Entity elects to exclude such companies, it can do so by excluding up to 40% of the level of their ownership completely from the determination of its compliance with the ownership target.

3.11.4 A Measured Entity electing not to exclude [section 21 companies] NPCs or companies limited by guarantee when it is entitled to do so, may either treat all of that ownership as non-black or obtain a competent person’s report estimating the extent of black rights of ownership measurable in the Measured Entity and originating from those [section 21 companies] NPCs or companies limited by guarantee.

3.11.5 Black Participants in an [Section 21 Company] NPC holding rights of ownership in a Measured Entity may contribute:

3.11.5.1 a maximum of 40% of the total points on the ownership scorecard of the Measured Entity if they meet the qualification criteria for Broad-Based Ownership Schemes and Employee Share Ownership Programmes as set out in Annexure 100(B) and Annexure 100(C) respectively.

3.11.5.2 100% of the total points on the ownership scorecard of the Measured Entity if they meet the additional qualification criteria set out for Broad-Based Ownership Schemes and Employee Share Ownership Programmes as set out in Annexure 100(B) and Annexure 100(C) respectively.

6.5 If the rand value of the total BEE stake is in excess of R7.5 billion, then the company will be considered to be compliant with the equity target in the scorecard. In the case of listed companies, the prescribed minimum free float (20%) will be excluded from computation of the target, subject to a minimum of 25.1% for the purposes of minority protection; In the case of SOE’s, the target is 30% of that component of equity that is not in government hands.

The Draft ICT Sector Codes deviates from the Generic Codes on the ownership target which has been increased to 30%. The substance of the deviation of the draft ICT sector Code from the Codes of Good Practice (25.1% +1) is the recognition by the ICT sector to accelerate the pace of transformation in the sector, thus ensuring more companies in the hands of black people. The ICT sector believes that given the pace of transformation and black ownership in the sector, it may take longer to bring about real transformation in the sector if the sector is to adopt the 25%+1 compliance target. This is also to recognize the uniqueness of the ICT sector and that it cannot be treated as any other sector, hence the deviation from the compliance target in the Codes of good practice.

The R 7.5 Billion figure was agreed position by the industry as a catalyst to accelerate transformation. The figure was agreed for taking into consideration the size of entities in the sector. However, this is not a static figure it could change after a period of time in the process of transformation to ensure the targeted figure of 30% black ownership is achieved.
With regard to the free float of 20 percent, the Electronic Communications Act requires that for each company to be granted a license, 30% must be owned by HDIs. With regard to companies listed in the JSE, they are required to maintain a minimum of 20% free float, i.e. shares that are freely available to the investing public. This means that 20% of the issued share capital is not under the control of the officers of the company. It was then agreed that listed companies should have 30% of the issued share capital that could be under the control of the officers, meaning that 30% of the 80% of the issued share capital. This translates to 24% of the issued share capital. It was also agreed that black investors should have their position strengthened as they are minority shareholders. It was therefore agree that they should have 25.1% by which they could exercise negative control.

6.5.1 Application of R7.5bn

6.5.1.1 For calculation purposes, the measurement of compliance to the R7.5bn must only be applied to sub-criteria 2.11 and 2.2.1 of the ownership scorecard. Where a measured entity has satisfied the requirement of a BEE stake value in excess of R7.5bn, the measured entity will deemed to have achieved maximum points for sub-criteria 2.1.1 and 2.2.1.

6.5.1.2 For calculation of compliance to sub-criteria 2.1.2, 2.2.2 and 2.2.3, the percentage value held by Black Women and broad-based schemes in terms of the BEE State value must be determined and then such percentage must be used to calculate level of compliance against the required target/s.

6.5.1.3 When calculating the level of compliance for Net Value, where in excess of R7.5bn has been attained, the percentage of debt settled calculated against the opening debt value must be determined in order to calculate level of compliance met in accordance to the time-based graduation factor

6.5.1.4 Where the total BEE stake value is less than R7.5bn, the score for sub-criteria 2.1.1 and 2.2.1 will be calculated using the actual percentage of black shareholding in the measured entity against the required target of 30%.

6.5.2 Review of R7.5bn

6.5.2.1 The ICT BEE Council must review annually the effect of R7.5bn before making recommendations for any changes;

6.5.2.2 When determining the extent of change to the R7.5bn the Council must take the following factors into account:-

6.5.2.2.1 The valuation of the company points to an overall enterprise value that is lower than the enterprise value at the date the original BEE transaction; or an overall market capitalisation of the JSE that is lower than the market capitalisation of the JSE at the date the original BEE transaction
6.5.2.2.2 Impact assessment if a company is not fairly valued by the market as, for example, in the instance where there has been a more than five percent decline in the share price of an enterprise over the preceding 4 quarters of a financial year; or the market capitalisation is lower than the fair value of a company as determined by an independent investment bank.

6.5.2.2.3 Depth of liquidity in the market and capacity of the market to handle multiple BEE transactions from veritable sectors of the economy.

6.5.2.3 The Council must publish such recommendations of change for public comment for a period of not less than 30 days.]

3.12. Trusts

3.12.1 Black Participants in a Trust holding rights of ownership in a Measured Entity may contribute:

3.12.1.1 A maximum of 40% of the total points on the ownership scorecard of the Measured Entity if the trust meets the qualification criteria for Trusts set out in Annexure 100 [(B)] [(D)].

3.12.1.2 100% of the total points on the ownership scorecard of the Measured Entity if [they] the Trust meets the additional qualification criteria set out for Trusts in Annexure 100 [(B)] [(D)].

3.13. Options and share warrants

3.13.1 Exercisable voting rights and Economic interest will be recognised where a Participant holds an instrument granting the holder the right to acquire an Equity Instrument or part thereof at a future date, if the following requirements are met:

3.13.1.1 The Exercisable Voting Rights attached to that instrument are irrevocably transferred to the holder for the option period and are exercisable by the holder before acquiring the Equity Instrument;

3.13.1.2 the value of any Economic Interest is irrevocably transferred to the holder for the option period and paid to the holder of that instrument before the exercise of that right; and

3.13.1.3 The value of [an] the instrument must be determined by using a Standard valuation method for calculating the Net value.

3.14.1 An Equity Instrument carrying preferential rights is measurable in the same manner as an ordinary Equity Instrument.
3.14.2 An Equity Instrument carrying preferential rights that has the characteristics of a debt, regardless of whether the debt is that of an [Enterprise] Entity or of a Participant, [is] must be treated as an ordinary loan. If the debt is that of a black Participant, it may be subject to measurement under [Current Equity Interest] Net Value.

3.14.3 In evaluating an instrument that has a hybrid nature including the characteristics of a debt, only that portion that represents a debt, will be measured under current equity interest. The remainder is measurable as an ordinary equity instrument.

[10. Net Value]

10.1 Ownership Fulfilment occurs:

10.1.1 on the release of all black Participants in a Measured Entity from all third-party rights arising from the financing their transaction with the Measured Entity; or

10.1.2 if all black Participants in the Enterprise have never been subject to any such third-party rights.

10.1.3 A score of 7 points for Net Value is a requirement for awarding the Ownership Fulfilment point]

[11. The Bonus Points]

11.1 A Measured Entity with 25% black Economic Interest, can receive a maximum of 2 bonus points for a 10% holding of Economic Interest by black new entrants.

11.2 A Measured Entity with 25% black Economic Interest, can receive a maximum of 1 bonus point for a 10% holding of Economic Interest by black Participants in:

11.2.1 Employee Ownership Schemes;

11.2.2 Broad-Based Ownership Schemes; and

11.2.3 Co-Operatives.]

ICT CODE SERIES 100: THE MEASUREMENT OF THE OWNERSHIP ELEMENT OF BROAD-BASED BLACK ECONOMIC EMPOWERMENT

STATEMENT 102: RECOGNITION IN THE SALE OF ASSETS

Issued under section 9 of the Broad-Based Black Economic Empowerment Act of 2003

Arrangement of this statement

1. Objectives of this statement
2. Application
3. Key Measurement Principles
4. Measurement Principles
5. Recognition of Sale of Assets, Equity Instruments and Business

1. Objectives of this statement

The objectives of this statement are to:

1.1 Set out the conditions where the Sale of Assets, Equity Instruments and other Businesses will be recognised.

1.2 Set out how the Ownership points will be determined.

2. Application

2.1 A transaction in terms of this statement may involve the sale of:

2.1.1.1 An asset;

2.1.1.2 A business; or

2.1.1.3 Equity Instruments in an Enterprise.

3. Key Measurement Principles

3.1 General principles:

3.1.1 A Seller that has concluded a transaction involving a sale of asset, Equity Instrument or business with an Associated Enterprise may claim the benefits provided for in this statement in its own Ownership Scorecard.

3.1.2 Where a Seller has claimed benefit in terms of the Ownership scorecard for the Sale of Asset, Equity Instrument or Business it may not claim benefits under the Enterprise Development Element.

3.2 Qualification Criteria:
3.2.1  For Ownership points to be recognised the transaction:

3.2.1.1 Must result in the creation of sustainable businesses or business opportunities in the hands of black people; and

3.2.1.2 Result in the transfer of specialised skills or productive capacity to black people.

3.2.2  A Sale of Asset, Equity Instrument and Business must involve a separate Associated Enterprise which has:

3.2.2.1 No unreasonable limitations as to its clients or customers; and

3.2.2.2 Clients, customers or suppliers other than the Seller.

3.2.3  Any operational outsourcing arrangements between the Seller and the Associated Enterprise must be negotiated at arms-length on a fair and reasonable basis.

3.2.4  The following transactions do not constitute Qualifying Transactions:

3.2.4.1 transfers of business rights by way of license, lease or other similar legal arrangements not conferring unrestricted ownership: and

3.2.4.2 Sales of franchises by franchisors to franchisees, but includes sales of franchises from franchisees to other franchisees or to new franchisees.

4.  Measurement Principles

4.1  The calculation of the ownership points in terms of paragraph 2.3.2. of the Ownership scorecard must be based on:

4.1.1  The value of the transaction.

4.1.2  The value of Equity Instruments held by black Participants in the Associated Enterprise;

4.1.3  The carrying value of the Acquisition Debt of black Participants in the Associated Enterprise; and

4.2  All calculations in terms of paragraph 4.1.1 to 4.1.3 must use a Standard valuation method.

4.3  The Seller may claim the point for Ownership Fulfilment only if both the Seller and the Associated Enterprise comply with the requirements for the award of that point.

4.4  Equivalency Percentages under this statement:

4.4.1  Apply only to the ownership indicators in paragraphs 2.1 and 2.2 of the Ownership Scorecard;
4.4.2 Do not apply to the ownership indicators in paragraphs 2.3 and 2.4 of the Ownership Scorecard.

4.5 The Seller must include the Equivalency Percentages in its own Ownership Scorecard as if those percentages arose from black ownership of Equity Instruments in the Seller. The Equivalent Percentages for the indicators in paragraphs 2.1 and 2.2 of the Ownership Scorecard can be calculated in terms of Annexure 102(A).

5. Recognition Of Sale Of Asset, Equity Instruments And Businesses

5.1 A Seller seeking recognition of a Transaction in its Ownership Scorecard must determine that recognition under paragraph 4 in compliance with paragraph 2.3 of statement 000:

5.1.1 For the first three years after the transaction, based on data current on date of measurement;

5.1.2 For each year thereafter, based on:

5.1.2.1 The Indicator Percentages at the date of measurement; and

5.1.2.2 The values of the Qualifying Transaction and benefit to the Seller at the date of measurement in the third year after the transaction.

ANNEXURE 102 (A) As amended from time to time shall apply to this statement.
ICT CODE SERIES 100: THE MEASUREMENT OF THE OWNERSHIP ELEMENT OF BROAD-BASED BLACK ECONOMIC EMPOWERMENT

STATEMENT 103: THE RECOGNITION OF EQUITY EQUIVALENTS FOR MULTINATIONALS

Issued under section 9 of the Broad-Based Black Economic Empowerment Act of 2003

Arrangement of this statement

1. Objectives of this statement
2. Key measurement principles
3. Recognition of Equity Equivalent Programmes
4. Measurement of Equity Equivalent Contributions on the Ownership Scorecard
5. Two Specific Examples of Equity Equivalent Programmes
6. Specific rules on Multinationals

1. Objectives of this statement

The objectives of this statement are to:

3.4.5.1 Enterprise and Supplier Development;

3.4.5.2 Research and Development; and

3.4.5.3 Critical and core Skills.

3.4.6 Multinationals may have any of the enterprises or natural persons stipulated under paragraphs 3.4.7 and 3.4.8 below as beneficiaries of their Equity Equivalent programmes.

3.4.7 If the beneficiaries of any programme stated under 3.4.6 above are Enterprises, the following criteria will apply:

3.4.7.1 for Exempted Micro Enterprises, the beneficiary must be a level one B-BBEE compliant enterprise; and

3.4.7.2 for Qualifying Small Enterprises, the beneficiary must be a level one B-BBEE compliant enterprise.

3.4.8 If the Beneficiaries of any programme state under 3.4.6 above are Natural Persons or Designated Groups or Co-Operatives or Communities, the following criteria will apply:

3.4.8.1 The natural persons who are Black people must be at least 75% of the total beneficiaries;

3.4.8.2 The Economic Interest/Benefit allocated to the beneficiaries must be at least 75%.

3.4.8.3 In the event that the Beneficiaries are represented by a Co-Operative then Black women must own more than 30% of the Co-operative.
3.5 Equity Equivalent Programme applications must include:

3.5.1 A full description of programme objectives and projected outcomes;

3.5.2 Qualification criteria for participation in the programme;

3.5.3 Timelines for implementation and delivery with milestones against which progress is measurable: and

3.5.4 Details about the sponsors of the programme.

3.6 Equity Equivalent Programmes are limited to Multinationals subject to a Global Practice.

3.6.1 an ICT enterprise or entity, which could suffer inherent commercial harm to its business due to, amongst others, legal, technological or policy barriers, which are incompatible with the sale of equity;

3.6.2 a SOE, and/or

3.6.3 a SMME, and/or

3.6.4 Community entities not for profit

3.7 Equity Equivalent Programmes may have any of the following as their beneficiaries:

3.7.1 Enterprises in which:

3.7.1.1 Black people hold more than 50% of the exercisable voting rights and more than 50% of the economic interest;

3.7.1.2 Black women hold more than 30% of the exercisable voting rights and more than 30% of the economic interest; and

3.7.1.3 Black Designated Groups hold more than 50% of the exercisable voting rights and more than 50% of the economic interest; or

3.7.2 Communities, natural persons or groups of natural persons where at least 75% of the beneficiaries are black people and the same percentage of economic value is derived by black people.]

[4. Measurement of Equity Equivalent Contributions on the Ownership Scorecard

4.1 The ownership score of a Multinational participating in an Equity Equivalent Programme is calculated in terms of paragraph 4.3. A Multinational participating in an Equity Equivalent Programme cannot receive any points for ownership under any statement in Code Series 100 other than this statement.
4.2 Contributions to Equity Equivalent Programmes are measured as actual contributions made using the general principle set out in Code series 600 and 700 against any of the following targets:

4.2.1 30% of the value of the South African operations of the entity apply for the recognition of Equity Equivalents determined using a Standard Valuation; or

4.2.2 30% of total net Profit after tax of the South African operations of the entity applying for recognition of equity Equivalents; or

4.2.3 4% of Total Revenue from its South African operations annually over the period of continued measurement

4.3 The Ownership Score under an Equity Equivalent Programme using either of the targets in paragraphs 4.2 must be calculated in terms of Annexure 103(A).

4 MEASUREMENT OF EQUITY EQUIVALENT CONTRIBUTIONS ON THE OWNERSHIP SCORECARD

4.1 The Ownership Score of a Multinational participating in an Equity Equivalent programme is calculated in terms of paragraph 4.3. A Multinational participating in an Equity Equivalent programme cannot receive any points for ownership under any statement in Code Series 100 other than this statement.

4.2 Contributions to Equity Equivalent programmes are measured as actual contributions made using the general principle set out in Code series 400 and 500 against any of the following targets:

4.2.1 25% of the value of the South African operations of the Multinational, determined using a Standard Valuation Method; or

4.2.2 4% of Total Revenue from its South African operations annually over the period of continued measurement.

4.3 The Ownership Score under an Equity Equivalent programme using either of the targets in paragraph 4.2 must be calculated in terms of Annexure 103 (A) shall apply to this statement.

5. Examples of Equity Equivalent Programmes

5.1 Enterprise creation:
5.1.1 If the equity equivalent contribution of the entity involves the creation of a new Enterprise:

5.1.1.1 The new Enterprise must qualify as a Value-Adding Enterprise;

5.1.1.2 The creation of the new Enterprise must comply with the requirements for a Qualifying Transaction as defined in statement 102;

5.1.1.3 The creation of the new Enterprise cannot contribute to the Multinational’s score under Code series 600; and

5.1.1.4 The equity equivalent contribution must involve the provision of interest free loans, No-Gain Grants or Human Capital Investments to the new Enterprise equivalent in value to 50% of the new Enterprise’s projected operational costs for the first 3 years following its establishment.

5.2 Investment in social advancement:

5.2.1 An equity equivalent contribution of the entity applying for recognition of Equity Equivalents that involves enhanced Socio-Economic Development.

5.2.1.1 Must comply fully with Code series 700; and

5.2.1.2 Cannot form part of the score of the entity applying for recognition of Equity Equivalents under Code series 700.

5 EEIP OWNERSHIP POINTS CERTIFICATE

5.1 The EEIP Ownership Points Certificate awarded in terms of this statement will be valid for an investment period agreed upon in terms of paragraph 9 below.

[6. Specific Rules on Entities Applying for Recognition of Equity Equivalents

6.1 Any contributions towards the ownership Element of B-BB-BBEE made by entities applying for recognition of Equity Equivalents are measurable against the value of their operations in the Republic of South Africa.

6.2 In calculating their ownership score, entities applying for recognition of Equity Equivalents must apply the Exclusion Principle to any portion of the business value of their South African operations gained from non-South African sources. A Standard valuation method must be used to determine the value of the South African operations.

6.3 In calculating their ownership score, entities applying for recognition of Equity Equivalents may recognise sales of Equity Instruments in non-South African Enterprises to black people, on the following basis:
6.3.1 The non-South African Enterprise must form part of the chain of ownership between the entities applying for recognition of Equity Equivalents and its eventual holding company; and

6.3.2 The transaction must comply with South African exchange control requirements; and

6.3.3 The percentage of the value of the Equity Instruments sold to the value of the business of the entity applying for recognition of Equity Equivalents represents the recognisable black claim to Economic Interest; and

6.3.4 The percentage of Exercisable Voting Rights ceded to the buyers of the Equity Instruments in the business of the entity applying for recognition of Equity Equivalents represents the recognisable black right to Exercisable Voting Rights; and

6.3.5 The rights of ownership in the Equity Instruments are comparable to rights that would have accrued had the Equity Instrument B-BBEE in the business of the entity applying for recognition of Equity Equivalents.

6 TOPPING-UP

6.1 If a Multinational wants to retain its EEIP Ownership Points at the date of expiry of its Certificate in terms of paragraph 5 above, then the Multinational will have to reinvest and make an additional contribution into a new Equity Equivalent programme using the Topping-Up principle as illustrated in the Technical Assistance Guide of the B-BBEE Codes.

7 PARTIAL CONTRIBUTIONS

7.1 Multinationals can make partial contributions to the EEIP on proportional ratio basis for the recognition of Ownership points. The Ownership points will be awarded and determined in terms of the provisions of both Statement 100 and Statement 103 as amended from time to time shall apply to this statement.

7.2 The minimum partial contributions that can be made towards EEIP, as allowed in terms of paragraph 7.1 above, must be at least 40% of the compliance target for the Ownership scorecard.

8 INVESTMENT PERIODS

8.1 Total contributions that are more than R100 million can be considered for an investment period of up to 10 years;

8.2 Total contributions between R75 million and R100 million can be considered for an investment period of up to seven years;
8.3 Total contributions between R50 million and R75 million can be considered for an investment period of up to five years; and

8.4 Total contributions that are less than R50 million can be considered for an investment period of up to three years.

9 RULES FOR THE ADMINISTRATION OF THE PROGRAMME

9.1 If the administration of the programme is outsourced then the rules stated below will apply, where applicable:

9.1.1 the economic interest and voting rights of the administrator must be at least 51% Black owned;

9.1.2 the administrator must be B-BBEE compliant and be a superior B-BBEE contributor;

9.1.3 the administration fee for programme must not exceed 15%;

9.1.4 the administrator must possess the appropriate and necessary skill and experience;

9.1.5 the programme manager responsible for overseeing the implementation of the programme by the administrator must be in possession of the B-BBEE Management Development Programme;

9.1.6 the programme manager must sign off on all reports to the multinational and/or to Department of Trade and Industry (“the dti”);

9.1.7 all goods and services procured for the purposes of implementing this programme must be sourced and procured from Service Providers that are B-BBEE compliant with a minimum B-BBEE Level Four; and

9.1.8 the dti reserves the right to request the B-BBEE verification certificate of both the administrator and the Service Provider(s) of goods and services procured in terms of paragraph 9.1.7 above.

9.2 If the administration of the programme is located within the Multinational, then the rules stated below will apply:

9.2.1 the staff assigned to the administration of the programme must possess the appropriate and necessary skill and experience;

9.2.2 the programme manager responsible for overseeing the implementation of the programme must be in possession of the B-BBEE Management Development Programme;

9.2.3 the administration fee for the programme must not exceed 15%;
9.2.4 all goods and services procured for the purposes of implementing this programme must be sourced and procured from Service Providers that are B-BBEE compliant with a minimum B-BBEE Level Four;

9.2.5 the programme manager and the CEO must sign off on all reports to the dti; and

9.2.6 the dti reserves the right to request the B-BBEE verification certificate of the Service Provider(s) of goods and services procured in terms of paragraph 9.2.4 above.

10 SPECIFIC RULES ON MULTINATIONALS

10.1 Any contributions towards the Ownership element of B-BBEE made by Multinationals, in terms of this Statement, are measurable against the value of their operations in the Republic of South Africa.

10.2 In calculating their Ownership score, Multinationals and South African Multinationals must apply the Exclusion Principle to any portion of the business value of their South African operations gained from non-South African sources. A Standard Valuation Method must be used to determine the value of the South African operations.

10.3 In calculating their Ownership score Multinationals may recognise sales of Equity Instruments in non-South African companies to Black people on the following basis:

10.3.1 the non-South African company and the Multinational in South Africa must form part of the same chain of ownership and be owned by the same ultimate parent company; and

10.3.2 the transaction must comply with South African exchange control requirements; and

10.3.3 the percentage of the value of the Equity Instruments (i.e. in the Non-South African company) sold to or held by South African Black people in the non-South African company to the value of the Multinational based in South Africa represents the recognisable Black claim to Economic Interest; and

10.3.4 the percentage of Exercisable Voting Rights ceded to the buyers of the Equity Instruments in the Multinational represents the recognisable Black right to Exercisable Voting Rights; and

10.3.5 The rights of Ownership in the Equity Instruments are comparable to rights that would have accrued to Black people had the Equity Instrument been held in the Multinational in South Africa.

3.2 Other Top Management positions include the chief information officer, the head of marketing, the head of sales, the head of public relations, the head of transformation, the head of human resources and other people holding similar positions.]

[4.] 3 Key Measurement Principles

[4]3.1 A Measured Entity receives points by meeting the targets for participation of black people and black women at Board and [Top Management level.] Executive Management Senior Management Middle management Junior Management and black employee.

[4]3.2 A Measured Entity must use the current payroll data in calculating its score under the Management Control scorecard [used in its returns filed with the Department of Labour under the Employment Equity Act. This does not apply to Measured Entities exempt from filing such returns.]

[4]3.3 A Measured Entity that does not distinguish between Other Executive [Top] Management and Senior Management, then Executive Management is measurable as a single indicator with a weighting of 6 point under paragraph 2.2.1 and 2.2.2 split as 4 and 2 point respectively.[may include its Senior Management under this statement. If a Measured Entity adopts this approach -]

[4.3.1] The corresponding targets for Senior Management in Code series 300 will apply to the Management Control scorecard;

4.3.2 Senior Management included in this statement is not measurable under statement 300.

4.4 If a Measured Entity does not distinguish between Senior Top Management and Other Top Management, then Top Management is
measurable as a single indicator with a Weighting of 5 points under paragraphs 2.2.1 and 2.2.2.

4.5 If Measured Entities do appoint Non-Executive Independent Board Members, they are encouraged to appoint persons who do not serve in that capacity for any other Measured Entity.]

4. GENERAL PRINCIPLES

4.1 Executive Management position include the following – Chief Executive Officer, Chief Operating Officer, Chief Financial Officer and other Executive Managers that serve on the Board of Directors.

4.2 Other Executive Management positions include all executive management that do not serve on the board, such as human resource executive transformation executive and other people holding similar positions.

5. [Calculating the Adjusted Recognition for Gender

The Adjusted Recognition for Gender is calculated in terms of formula “A” in Annexure 200(A).]

5. MEASUREMENT OF THE MANAGEMENT CONTROL CRITERIA

The criteria in the management control scorecard is measured in terms of the formula “A,B,C” sent out in Annexure 200(A) as amended from time to time

[6. Calculating Compliance

6.1 The Management Control indicators provided for in the Management Control Scorecard must be calculated in terms of formulas “B” and “C” in Annexure 200(A).

6.2 If a Measured Entity gains a score for a Management Control indicator that is more than the relevant weighting points, that Enterprise will only receive the Weighting points.]

2.2 The Weighting points in the Employment Equity scorecard represent the maximum number of points possible for each of the criteria.
3. Key Measurement Principles

3.1 Wherever possible, a Measured Entity must use the data that it files with the Department of Labour under the Employment Equity Act in calculating its score under the employment equity scorecard.

3.1.1 No Measured Entity shall receive any points under the Employment Equity Scorecard unless they have achieved a sub-minimum of 40% of each of the targets set out on the Employment Equity Scorecard in respect of the both five year periods.

3.2 In order for a Measured Entity to achieve bonus points at a particular level, the entity needs to meet or exceed the EAP targets.

3.3 A Measured Entity exempt from filing returns must compile its data for calculating its score under the Employment Equity Scorecard using the guidelines set out in the Employment Equity Act and its EE Regulations.

3.4 If the organisational structure of a Measured Entity does not distinguish between Middle Management and Junior Management, it can consolidate those Measurement Categories against the targets for Junior Management. The weighting points for the Measurement Categories must be adjusted as follows:

3.4.1 Senior Management - 6 points;
3.4.2 Junior Management - 3 points.

3.5 Black women employees in each Measurement Category qualify for enhanced recognition using the Adjusted Recognition for Gender.

4. Calculating the Adjusted Recognition for Gender

The Adjusted Recognition for Gender is calculated in terms of the formula set out in Annexure (300A) As amended from time to time.

5. Measurement of the Employment Equity Criteria

The criteria in the Employment Equity scorecard is measured in terms of the formula set out in Annexure 300(A) As amended from time to time.]

2.2 The Weighting points in the Skills Development scorecard represent the maximum number of points possible for each of the criteria.

2.3 The compliance targets for 2.1.1.1, 2.1.1.2, 2.1.2.1, 2.1.2.2 and 2.1.3 of the Skills Development scorecard are based on the overall demographic representation of black people as defined in the Employment Equity Act. For scoring purposes, the targets should be further broken down into specific criteria according to the different race sub-groups within the definition of black in accordance with the Employment Equity Act requirements on equitable representation and weighted accordingly.

2.4. (is 2.3 of the generic) In determining a Measured Entity's score, the targets should be further

3. Key Measurement Principles

[3.1 Measured Entities receive points on the Skills Development scorecard only if:

3.1.1 They are in compliance with the requirements of the Skills Development Act and the Skills Development Levies Act;

3.1.2 They have registered with the MICT SETA;

3.1.3 They have developed a Workplace Skills Plan; and

3.1.4 They have implemented programmes targeted at developing Priority Skills generally, and specifically, for black employees.]

3.1 Measured Entities receive points on the Skills Development scorecard only if:
3.1.1 They have developed the following SETA approved documents: Workplace Skills Plan, an annual training report and pivotal report; and

3.1.2 They have implemented programmes targeted at developing Priority Skills generally, and specifically for black people.

3.2 The 6% compliance target under paragraph 2.1.1.1 also includes external training expenditure for unemployed black people.

3.3 It is the measured entity’s sole responsibility to trace employment of the trainees for purpose of scoring under paragraph 2.1.3.

3.4 If less than 100% of the trainees are absorbed under paragraph 2.1.3, the percentage achieved or absorbed will be recognised.

3.5[2] Expenses on scholarships and bursaries for employees does not constitute Skills Development Expenditure if the Measured Entity can recover any portion of those expenses from the employee or if the grant of the scholarship or bursary is conditional. Despite the afore going, if the right of recovery or the condition involves either of the following obligations of the employee, the expenses are recognisable:

3.5[2].1 The obligation of successful completion in their studies within the time period allocated; or

3.5[2].2 The obligation of continued employment by the Measured Entity for a period following successful completion of their studies is not more than the period of their studies.

[3.3 Any Skills Development Expenditure by a Measured Entity that is an ABET programme is recognisable at a multiple of 1.25 to the actual value of such Skills Development Expenditure.

3.4 Skills Development Expenditure includes any legitimate expenses incurred for any Learning Programme offered by a Measured Entity to its employees evidenced by an invoice or appropriate internal accounting record.

3.5 Skills Development Expenditure arising from Uncertified Learning Programmes or from Category G Learning Programmes under the Learning Programmes Matrix cannot represent more than 15% of the total value of Skills Development Expenditure.]

3.6 Legitimate training expenses includes:

3.6.1 Costs of training materials;

3.6.2 Costs of trainers;

3.6.3 Costs of training facilities including costs of catering;
3.6.4 Scholarships and bursaries;
3.6.5 Course fees;
3.6.6 Accommodation and travel; and
3.6.7 Administration costs such as the organization of training including, where appropriate, the cost to the Measured Entity of employing a skills development facilitator or a training manager.

[3.7 Salaries or wages paid to an employee participating as a learner in any Learning Programme only constitute Skills Development Expenditure if the Learning Programme is a Learnership or falls within Category B; C; or D of the Learning Programme Matrix.]

[4. Calculating the Adjusted Recognition for Gender
The calculation of the Adjusted Recognition for Gender is set out in formula “A” in Annexure 400(B).]

4. SUBMINIMUM AND DISCOUNTING PRINCIPLE

4.1 A Measured Entity must achieve a minimum of 40% of the targets set out in the Skills Development Element.

4.2. Non-compliance with this threshold targets will result in the achieved B-BBEE status level being discounted in accordance with paragraph 3.4. in statement 000.

[5. Measurement of Skills Development Indicators
The formula that explains the method of measurement of the criteria in the Skills Development scorecard is in terms of formula “B” in Annexure 400(B).]

5. GENERAL PRINCIPLES

5.1 Need a text to support below sub-section.

5.1.1 Skills Development must contribute to the achievement of the country’s economic growth and social development goals by developing skills that will enrich the creation of decent work and sustainable livelihoods

5.1.2 Promote the development of an industrial skills base in critical ICT Sector of production and value-added manufacturing, which are largely labour-intensive industries.
5.1.3 Support ‘Professional, Vocational, Technical and Academic Learning’ programmes, achieved by means of professional placements, work-integrated learning, apprenticeships, learnerships and internships, that meet the critical needs for economic growth and development.

5.1.4 Strengthen the skills and human resource base by encouraging the support of skills development initiatives with an emphasis on skills development and career pathing for all working people in order to support employment creation.

5.2. Skills Development Expenditure includes any legitimate expenses incurred for any Learning Programme offered by a Measured Entity to its employees evidenced by an invoice or appropriate internal accounting record.

5.3. Skills Development Expenditure arising from Informal and workplace Learning Programmes or from Category F and G Learning Programmes under the Learning Programmes Matrix cannot represent more than 15% of the total value of Skills Development Expenditure.

5.4. Legitimate training costs such as accommodation, catering and travelling (non-exhaustive) cannot exceed more than 15% of the total value of Skills Development Expenditure.

5.5. Salaries or wages paid to an employee participating as a learner in any Learning Programme only constitute Skills Development Expenditure if the Learning Programme is a Learnership, Internship and Apprenticeship (Category B, C and D) of the Learning Programme Matrix.

5.6. Mandatory sectoral training does not qualify as skills development contribution i.e health and safety in construction sector (non-exhaustive list).

5.7. Training outside the country in line with the Learning Programme Matrix under annexure 300(A) As amended from time to time is measurable if it meets the South African Qualification Authority requirement for recognition.

6. **THE LEARNING PROGRAMME MATRIX ANNEXURE 300 (B) shall apply to this statement.**

   The Minister of Trade and Industry may from time to time, by notice in the gazette, revise or substitute the Learning Programme Matrix. [Any changes will only be applicable to Compliance Reports prepared for a Measured Entity for the first 12-month period following the gazetting of a revision or substitution.]

7. **MEASUREMENT OF SKILL DEVELOPMENT INDICATORS**

   The formula that explains the method of measurement of the criteria in the skills development scorecard is set out in Annexure 300(B) shall apply to this statement.
ICT CODE SERIES 400: MEASUREMENT OF THE ENTERPRISE AND SUPPLIER DEVELOPMENT ELEMENT OF BROAD-BASED BLACK ECONOMIC EMPOWERMENT

Statement 400: the general principles for measuring Enterprise and Supplier Development Element

Issued under section 9 of the Broad-Based Black Economic Empowerment Act of 2003

1. OBJECTIVES OF THIS STATEMENT

1.1 The Enterprise and Supplier Development Focus areas:

1.1.1 Preferential Procurement; and

1.1.2 Enterprise and Supplier Development.

1.2 Specify the scorecard for measuring Enterprise and Supplier Development;

1.3 The key measurement principles applicable to calculating Preferential Procurement contributions to B-BBEE and Qualifying Enterprise Development Contributions;

1.4 Principles applicable when calculating B-BBEE Procurement Spend and Enterprise Development Spend; and

1.5 The formula for calculating the individual criteria specified in the Enterprise and Supplier Development scorecard.

3 KEY MEASUREMENT PRINCIPLES

3.1 The Enterprise and Supplier Development consist of,

3.1.1 Preferential Procurement, and

3.1.2 Enterprise Development and Supplier Development.

3.1.3 Enterprise Development and Supplier Development Contributions will be recognised as a percentage of annual Net Profit AfterTax. (NPAT)

3.2 SUB-MINIMUM AND DISCOUNTING PRINCIPLE

3.2.1 A Measured Entity must achieve a minimum of 40% of each of the targets set out on 2.1, 2.2 and 2.3 excluding bonus points of the Enterprise and Supplier Development Scorecard.

3.2.2 Non-Compliance to the threshold targets will result in the overall achieved B-BBEE status level being discounted in accordance with paragraph 3.4 on statement 000.

3.3 An Empowering Supplier within a context of B-BBEE is a B-BBEE compliant entity which is a good citizen South African entity comply with all regulatory requirements of the country and should meet at least three if it is a large enterprise or, one if it is a QSE of the following criteria:

a) At least 25% of cost of sales excluding labour cost and depreciation must be produced from local producers or local supplier in SA, for a service, labour costs are included but capped at 15%

b) Job Creation – 50% of jobs created are for Black people provided that the number of Black employees since the immediate prior verified B-BBEE measurement is maintained.

c) At least 25% transformation of raw material/ beneficiation which include local manufacturing, production, and/or assembly and/or packaging.

d) Skills transfer – at least spend 12 days per annum of productivity deployed in assisting Black EMEs and QSEs beneficiaries to increase their operational or financial capacity.

3.3.2 Exempted Micro Enterprises and Start-Ups are automatically recognised as Empowering Suppliers

3.4 The Weighting points in the Enterprise and Supplier Development scorecard represent the maximum number of points possible for each of the criteria.

3.5 If a measured entity procures goods and services from a supplier that is:
3.5.1 A recipient of a supplier development contributions from a Measured Entity under Code series 400 has a minimum 3 year contract with the Measured Entity, the recognisable B-BBEE spend that can be attributed to that supplier is multiplied to the factor of 1.2.

3.5.2 A Black Owned QSE or EME which is not a supplier development beneficiary but has a minimum 3 year contract with the measured entity, the recognisable B-BBEE procurement spend that can be attributed to that supplier is multiplied by a factor of 1.2.

3.5.3 A first time supplier to the Measured Entity, the recognisable B-BBEE procurement spend that can be attributed to that Supplier is multiplied by a factor of 1.2.

3.6 Procurement of goods and services and any other activities that fall under 2.1 will not qualify for scoring under 2.2 and 2.3 and vice versa.

3.7 Beneficiaries of Supplier Development and Enterprise Development are EMEs or QSEs which are at least 51% Black Owned or at least 51% Black Women Owned.

4.1 To strengthen local procurement in order to help build South Africa’s industrial base in critical sectors of production and value adding manufacturing, which are largely labour-intensive industries.

4.2 To increase local procurement through capacity building achieved by incentivising appropriate local supplier development programmes by businesses supplying imported goods and services.

4.3 The imports provisions do not apply to the designated sector and products for local production as and when published.

4.4 To actively support procurement from black owned QSEs and EMEs by identifying opportunities to increase procurement from local suppliers in order to support employment creation.

4.5 To support procurement from black owned and black women owned businesses in order to increase the participation of these businesses in the main stream economy.

4.6 To promote the use of black owned professional service providers and entrepreneurs as suppliers.

4.7 Measured Entities receive recognition for any Enterprise and Supplier Development Contributions that are quantifiable as a monetary value using a Standard Valuation Method.
4.8 Measured Entities are encouraged to align their Enterprise and Supplier Development initiatives with the designated sectors of government’s localisation and valued adding programmes.

4.9 Measured Entities are encouraged to align their enterprise and supplier development initiatives with their supply chain requirements thereby linking Enterprise and Supplier Development with preferential procurement.

4.10 Qualifying Enterprise and Supplier Development Contributions of any Measured Entity are recognisable on an annual basis.

4.11 Contributions, programmes and/or initiatives that span over multiple years, the total contribution amount must be divided by the number of years, and the average per year is then to be utilised for the annual contribution.

4.12 Measured Entities are encouraged to develop and implement an Enterprise Development and Supplier Development plan for Qualifying Beneficiaries. The plan should include:

4.12.1 Clear objectives
4.12.2 Priority interventions
4.12.3 Key performance indicators; and
4.12.4 A concise implementation plan with clearly articulated milestones.

4.13 Measured Entities will not get recognition for same activities undertaken under 2.2 and 2.3, they only get recognition for one of the two i.e. 2.2 or 2.3.

4.14 No portion of the value of any Qualifying Enterprise and Supplier Development Contribution that is payable to the beneficiary after the date of measurement can form part of any calculation under this statement.

5 TOTAL MEASURED PROCUREMENT SPEND

The following procurement is measurable within Total Measured Procurement Spend:

5.1 Cost of sales: all goods and services procured that comprise the cost of the sales of the Measured Entity;

5.2 Operational expenditure: all goods and services procured that comprise the operational expenditure of the Measured Entity;

5.3 Capital expenditure: all capital expenditure incurred by the Measured Entity;
5.4 Public sector procurement:

5.4.1 All goods and services procured from organs of state and public entities. Despite this, procurement by a Measured Entity from a local government authority, which is a reseller of that service, is measurable at the B-BBEE Recognition Level of the primary Supplier of the service; and

5.4.2 in any event, any procurement of any goods or services from any organ of state or public entity that enjoys a statutory or regulated monopoly in the supply of such goods or services, is excluded;

5.5 Monopolistic procurement: all goods and services procured from suppliers that enjoy a monopolistic position;

5.6 Third-party procurement: all procurement for a third-party or a client, where the cost of that procurement is an expense recorded in the Measured Entity’s annual financial statements;

5.7 Labour brokers and independent contractors: any procurement of the Measured Entity which is Outsourced Labour Expenditure;

5.8 Pension and medical aid contributions: payments made to any post retirement funding scheme or to a medical aid or similar medical insurer by a Measured Entity for its employees, excluding any portions of such payments which are a contribution to a capital investment of the employee. The scheme or insurer must issue a certificate dividing payments between the capital investment portion and the balance to establish the amount that is measurable within Total Measured Procurement Spend;

5.9 Trade commissions: any commissions or similar payments payable by a Measured Entity to any other person pursuant to the business or trade of the Measured Entity;

5.10 Empowerment related expenditure: all goods and services procured in carrying out B-BBEE. The Total Measured Procurement Spend does not include the actual contribution portion recognised under Code series 500 or 600 but does include any expenditure incurred in facilitating those contributions;

5.11 Imports: all goods and services that are imported or procured from a non-South African source; and

5.12 Intra-group procurement: all goods and services procured from subsidiaries or holding companies of the Measured Entity (BEE credentials of the entity supplying goods and/or services must be confirmed by way of a valid BEE certificate).
6. EXCLUSIONS FROM TOTAL MEASURED PROCUREMENT SPEND

The following list provides permissible exclusions from Total Measured Procurement Spend recognisable in terms of paragraph 4.12.4:

6.1 Taxation: any amount payable to any person which represents a lawful tax or levy imposed by an organ of state authorised to impose such tax or levy, including rates imposed by a municipality or other local government;

6.2 Salaries, wages, remunerations, and emoluments: any amount payable to an employee as an element of their salary or wage and any emolument or similar payment paid to a director of a Measured Entity;

6.3 Pass-through third-party procurement: all procurement for a third-party or a client that is recorded as an expense in the third-party or client's annual financial statements but is not recorded as such in the Measured Entity’s annual financial statements;

6.4 Empowerment related procurement:
   6.4.1 investments in or loans to an Associated Enterprise;
   6.4.2 investments, loans or donations qualifying for recognition under any statement under Code series 400 or 500;

6.5 Imports: the following imported goods and services:
   6.5.1 imported capital goods or components for value-added production in South Africa provided that:
      6.5.1.1 there is no existing local production of such capital goods or components; and
      6.5.1.2 importing those capital goods or components promotes further value-added production within South Africa;
   6.5.2 imported goods and services other than those listed in paragraph 6.5.1 if there is no local production of those goods or services including, but not limited to, imported goods or services that –
      6.5.2.1 carry a brand different to the locally produced goods or services; or
      6.5.2.2 have different technical specifications to the locally produced goods or services.

6.5.3 The Exclusion of imports listed under 6.5.2 are subject to them having developed and implemented an Enterprise Development and Supplier Development plan for imported goods and services. This plan should include:
   6.5.3.1 Clear objectives
   6.5.3.2 Priority interventions
   6.5.3.3 Key performance indicators; and
6.5.3.4 A concise implementation plan with clearly articulated milestones

6.5.4 The Department of Trading and Industry from time to time will consult with the industry and issue practice notes with regard to the provision on import exclusion.

7. MEASUREMENT OF B-BBEE PROCUREMENT SPEND

7.1 B-BBEE Procurement Spend is the value of the procurement falling within paragraph 5 and not excluded by paragraph 6. If a supplier falls within a category of supplier listed in paragraph 3.5, the value of procurement from that supplier is multiplied by the applicable factor listed in that paragraph.

7.2 B-BBEE Procurement Spend can be measured in terms of formula “A” in Annexure 400 (A).

7.3 The B-BBEE Procurement Spend for a Measured Entity in respect of a supplier is calculated by multiplying the spend contemplated by paragraph 5 (and not excluded by paragraph 6) in respect of that supplier by the supplier’s B-BBEE Recognition Level.

7.4 A Measured Entity’s Total Procurement Spend is the total of all amounts calculated in terms of paragraph 7.3.

8 THE CALCULATION OF PREFERENTIAL PROCUREMENT CONTRIBUTIONS TO B-BBEE

8.1 A Measured Entity receives a score for procurement in proportion to the extent that it meets the compliance target.

8.2 The Measured Entity’s score for Preferential Procurement contributions to B-BBEE under the preferential procurement scorecard can be calculated in terms of formula “B” in Annexure 400(A).

9 ENTERPRISE DEVELOPMENT AND SUPPLIER DEVELOPMENT CONTRIBUTIONS

9.1 The following is a non-exhaustive list of Recoverable Enterprise and Supplier Development Contributions:

9.1.1 investments in beneficiary entities;

9.1.2 loans made to beneficiary entities;

9.1.3 guarantees given or security provided on behalf of beneficiaries;

9.1.4 credit facilities made available to beneficiary entities;
9.1.5 grant Contributions to beneficiary entities;

9.1.6 direct costs incurred by a Measured Entity in assisting and hastening development of beneficiary entities;

9.1.7 overhead costs of a Measured Entity directly attributable to Enterprise and Supplier Development Contributions;

9.1.8 preferential credit terms granted by a Measured Entity to beneficiary entities;

9.1.9 preferential terms granted by a Measured Entity in respect of its supply of goods or services to beneficiary entities;

9.1.10 contributions made to settling service costs relating to the operational or financial capacity or efficiency levels of beneficiary entities;

9.1.11 discounts given to beneficiary entities in relation to the acquisition and maintenance costs associated with the grant to those beneficiary entities of franchise, licence, agency, distribution or other similar business rights;

9.1.12 the creation or development of capacity and expertise for beneficiary entities needed to manufacture or produce goods or services previously not manufactured, produced or provided in the Republic of South Africa is provided for in Government's economic growth and local supplier development policies and initiatives;

9.1.13 facilitating access to credit for beneficiary entities without access to similar credit facilities through traditional means owing to a lack of credit history, high-risk or lack of collateral;

9.1.14 provision of training or mentoring by suitably qualified entities or individuals to beneficiary entities which will assist the beneficiary entities to increase their operational or financial capacity; and

9.1.15 the maintenance by the Measured Entity of an Enterprise and Supplier Development unit which focuses exclusively on support of beneficiary entities or candidate beneficiary entities.

9.1.16 New projects promoting beneficiation by the Measured Entity for the benefit of Enterprise and Supplier Development Beneficiaries.

9.1.17 Provision of preferential credit facilities to a beneficiary entity by a Measured Entity may constitute an Enterprise and Supplier Development Contribution. Examples of such contributions include without limitation:

9.1.18 provision of finance to beneficiary entities at lower than commercial rates
9.1.19 relaxed security requirements or absence of security requirements for beneficiary entities unable to provide security for loans; and

9.1.20 settlement of accounts with beneficiary entities over a shorter period of time in relation to the Measured Entity's normal payment period, provided the shorter period is no longer than 15 days;

9.1.21 providing training or mentoring to beneficiary communities by a Measured Entity. (Such contributions are measurable by quantifying the cost of time (excluding travel or commuting time) spent by staff or management of the Measured Entity in carrying out such initiatives. A clear justification, commensurate with the seniority and expertise of the trainer or mentor, must support any claim for time costs incurred).

9.1.22 Maintaining an Enterprise and Supplier Development unit by the Measured Entity. (Only that portion of salaries and wages attributable to time spent by the staff in, and the other expenses related to, promoting or implementing Enterprise and Supplier Development constitute contributions.)

9.1.23 Payments made by the Measured Entity to suitably qualified and experienced third parties to perform Enterprise and Supplier Development on the Measured Entity's behalf;

10 MONETARY AND NON-MONETARY CONTRIBUTIONS

10.1 Subject always to the definition of Qualifying Enterprise and Supplier Development Contributions, the following monetary/non-monetary contributions will, without limitation, be considered:

10.1.1 the provision of seed or development capital;

10.1.2 contributions made towards the settlement of the cost of services relating to the operational or financial capacity and/or efficiency levels of a Qualifying Enterprise and Supplier Development Beneficiary including, without limitation:

10.1.2.1 professional and consulting services;

10.1.2.2 licensing and/or registration fees;

10.1.2.3 industry specific levies and/or other such fees; and

10.1.2.4 IT services;

10.1.3 subject to paragraph 10.1., creation or development of capacity and
expertise for Beneficiary Entities required to manufacture or produce goods and/or services previously not manufactured, produced or provided in the Republic of South Africa;

10.1.4 subject to paragraph 10.2 provision of preferential credit facilities;

10.1.5 subject to paragraph 10.1 facilitation of access to credit for Beneficiary Entities unable to access similar credit facilities through traditional means owing to a lack of credit history, high risk and/or lack of collateral;

10.1.6 subject to paragraph 10.3 provision of training and/or mentoring to Beneficiary Entities which will assist the Beneficiary Entities to increase their operational and/or financial capacity; and

10.1.7 subject to paragraph 10.4. the maintenance by the Measured Entity of an Enterprise and Supplier Development unit which focuses exclusively on support of Beneficiary Entities or candidate Beneficiary Entities.

10.2 The creation and/or development of the capacity of Beneficiary Entities which will enable them to manufacture and produce goods and/or provide services previously not available in the Republic of South Africa, may constitute a Qualifying Enterprise and Supplier Development Contribution, and will be measured as the rand value of monetary contributions made as well as investments into, loans made to or guarantees given for a Beneficiary Entity.

10.3 Provision of preferential credit facilities to a Beneficiary Entity by a Measured Entity may constitute a Qualifying Enterprise and Supplier Development Contribution. Examples of such contributions include without limitation:

10.3.1 provision of finance to Beneficiary Entities at rates of interest below the applicable rate. Such contributions will be measured as the value of the differential between the actual interest rate provided to the Beneficiary Entity and the applicable rate;

10.3.2 relaxed security requirements or absence of security requirements for Beneficiary Entities unable to provide security for loans. Such contributions shall be measured as being 3% (three percent) of any positive differential between the initial capital value of the loan and the value of security taken; and

10.3.3 settlement of accounts with Beneficiary Entities over a shorter period of time in relation to the Measured Entity's normal payment period, provided that the shorter period is no longer than 15 days. Preferential payment terms which extend beyond 15 days will not qualify as Qualifying Enterprise and Supplier Development Contributions;
10.4 Provision of training and/or mentoring to a Beneficiary Entity by a Measured Entity may constitute a Qualifying Enterprise and Supplier Development Contribution. Such contributions will be measured by quantifying the cost of time spent by staff or management of the Measured Entity in carrying out such initiatives. Any travel or commuting time may not be included in this cost. Furthermore, a clear justification must be supplied with respect to the calculation of such time costs incurred, commensurate with the level of seniority and expertise of the trainer or mentor. Common forms of such contribution include without limitation:

10.4.1 Professional and consulting services;

10.4.2 IT services; and

10.4.3 any other services which help to increase the entity’s financial and/or operational capacity and which have not also been accounted for under skills development.

10.5 The maintenance of an Enterprise and Supplier Development unit by the Measured Entity may constitute a Qualifying Enterprise and Supplier Development Contribution. Common examples of such contributions include without limitation the salaries and wages of staff and other expenses involved in the operation of such Enterprise and Supplier Development unit. Notwithstanding the foregoing, only that portion of salaries and wages which relate to time spent by the staff in and the other expenses related to the promotion and implementation of Enterprise and Supplier Development in respect of Beneficiary Entities or candidate Beneficiary Entities should be taken into consideration under Enterprise and Supplier Development contributions.

11 MEASUREMENT OF ENTERPRISE AND SUPPLIER DEVELOPMENT CONTRIBUTIONS

11.1 A Measure Entity receives a score for Enterprise Development and Supplier Development in proportion the extent that it meets the compliance target.

11.2 Qualifying Contributions are measurable using the formula “A” in Annexure 400(B) shall apply to this statement.

3. Key Measurement Principles

3.1 The Weighting points in the Preferential Procurement scorecard represent the maximum number of points possible for each of the criteria.

3.2 All goods and services procured by the Measured Entity, other than any portion specifically excluded in terms of this statement, is measurable in calculating its Total Measured Procurement Spend.

3.3 If a Measured Entity procures goods and services from a Supplier that is:

3.3.1 a recipient of enterprise development contributions from the Measured Entity under Code series 600, the recognisable B-BBEE Procurement Spend that can be attributed to that Supplier is multiplied by a factor of 1.2; and

3.3.2 a Value-Adding Supplier, the recognisable B-BBEE Procurement Spend that can be attributed to that Supplier is multiplied by a factor of 1.25.

3.4 This statement applies to all areas of procurement.

4. Black Owned Professional Service Providers and Entrepreneurs

4.1 A key intention of this statement is to promote the use by Measured Entities, of black owned professional service providers and entrepreneurs as suppliers.

4.2 Black owned professional service providers and entrepreneurs that comply with all the elements of the ICT Codes:

4.2.1 qualify for recognition in all three criteria in the preferential procurement scorecard; and
4.2.2 qualify as value-adding suppliers thereby attracting the benefits in paragraph 3.3.2.

5. Total Measured Procurement Spend

The following procurement is measurable within Total Measured Procurement Spend:

5.1 Cost of sales: all goods and services procured that comprise the cost of the sales of the Measured Entity,

5.2 Operational expenditure: all goods and services procured that comprise the operational expenditure of the Measured Entity;

5.3 Capital expenditure: all capital expenditure incurred by the Measured Entity;

5.4 Public sector procurement: all goods and services procured from organs of state and public entities listed in Schedules 2 and 3 to the Public Finance Management Act of 1998:

5.5 Monopolistic procurement: all goods and services procured from suppliers that enjoy a monopolistic position;

5.6 Third-party procurement: all procurement for a third-party or a client, where the cost of that procurement is an expense recorded in the Measured Entity’s annual financial statements;

5.7 Labour brokers and independent contractors: any procurement of the Measured Entity which is Outsourced Labour Expenditure;

5.8 Pension and medical aid contributions: payments made to any post retirement funding scheme or to a medical aid or similar medical insurer by a Measured Entity for its employees, excluding any portions of such payments which are a contribution to a capital investment of the employee. The scheme or insurer must issue a certificate dividing payments between the capital investment portion and the balance to establish the amount that is measurable within Total Measured Procurement Spend;

5.9 Trade commissions: any commissions or similar payments payable by a Measured Entity to any other person pursuant to the business or trade of the Measured Entity;

5.10 Empowerment related expenditure: all goods and services procured in carrying out B-BBEE. The Total Measured Procurement Spend does not include the actual contribution portion recognised under Code series 600 or 700 but does include any expenditure incurred in facilitating those contributions:
5.11 Imports: all goods and services that are imported or procured from a non-South African source; and

5.12 Intra-group procurement: except as provided in statement 002, all goods and services procured from subsidiaries or holding companies of the Measured Entity.

6. Exclusions from Total Measured Procurement Spend

The following list is the only permissible exclusions from Total Measured Procurement Spend recognisable in terms of paragraph 5:

6.1 Taxation: any amount payable to any person which represents a lawful tax or levy imposed by an organ of state authorised to impose such tax or levy, including rates imposed by a municipality or other local government;

6.2 Public sector procurement:

6.2.1 all goods and services procured from organs of state and public entities listed in Schedule 1 of the Public Finance Management Act of 1999. Despite this, procurement by a Measured Entity from a local government authority, which is a reseller of that service, is measurable at the B-BBEE Recognition Level of the primary Supplier of the service; and

6.2.2 in any event, any procurement of any goods or services from any organ of state or public entity that enjoys a statutory or regulated monopoly in the supply of such goods or services, is excluded;

6.3 Salaries, wages, remunerations, and emoluments: any amount payable to an employee as an element of their salary or wage and any emolument or similar payment paid to a director of a Measured Entity

6.4 Pass-through third-party procurement: all procurement for a third-party or a client that is recorded as an expense in the third-party or client’s annual financial statements but is not recorded as such in the Measured Entity’s annual financial statements;

6.5 Empowerment related procurement:

6.5.1 investments in or loans to an Associated Enterprise;

6.5.2 investments, loans or donations qualifying for recognition under any statement under Code series 600 or 700;

6.6 Imports: the following imported goods and services:

6.6.1 imported capital goods or components for value-added production in South Africa provided that:
6.6.1.1 there is no existing local production of such capital goods or components; and

6.6.1.2 importing those capital goods or components promotes further value-added production within South Africa;

6.6.2 if there is no local production of those goods or services including, but not limited to, imported goods or services that -

6.6.2.1 carry a brand different to the locally produced goods or services; or

6.6.2.2 have different technical specifications to the locally produced goods or services.

7. Measurement of B-BBEE Procurement Spend

7.1 B-BBEE Procurement Spend is the value of the procurement falling within paragraph 5 and not excluded by paragraph 6. If a supplier falls within a category of supplier listed in paragraph 3.3 or 4, the value of procurement from that supplier is multiplied by the applicable factor listed in paragraph 3.3.

7.2 B-BBEE Procurement Spend can be measured in terms of formula “A” in Annexure 500(A).

7.3 The B-BBEE Procurement Spend for a Measured Entity in respect of a supplier is calculated by multiplying the spend contemplated by paragraph 5 (and not excluded by paragraph 6) in respect of that supplier by the supplier’s B-BBEE Recognition Level.

7.4 A Measured Entity’s Total Procurement Spend is the total of all amounts calculated in terms of paragraph 7.3.

8. The Calculation of Preferential Procurement Contributions to B-BBEE

8.1 A Measured Entity receives a score for procurement in proportion to the extent that it meets the compliance target

8.2 The Measured Entity’s score for Preferential Procurement contributions to B-BBEE under the preferential procurement scorecard can be calculated in terms of formula “B” in Annexure 500(A)

CODE SERIES 600: MEASUREMENT OF ENTERPRISE DEVELOPMENT ELEMENT OF BROAD-BASED BLACK ECONOMIC EMPOWERMENT
STATEMENT 600: THE GENERAL PRINCIPLES FOR MEASURING ENTERPRISE DEVELOPMENT ELEMENT

Issued under section 9 of the Broad-Based Black Economic Empowerment Act of 2003

Arrangement of this statement

1. **Objectives of this statement**
   The objectives of this statement are to specify:
   1.1 The Enterprise Development (ED) scorecard;
   1.2 The key measurement principles for calculating Qualifying Enterprise Development Contributions; and
   1.3 The formula for calculating the individual criteria specified in the ED scorecard.

2. **The Enterprise Development Scorecard**
   2.1 The following table represents the criteria and method used for deriving a score for Enterprise Development under this statement:

<table>
<thead>
<tr>
<th>Criteria</th>
<th>Weighting Points</th>
<th>Compliance Target</th>
</tr>
</thead>
<tbody>

</tr>
</tbody>
</table>

COE-ICT-151027v9   ICT SECTOR CODE  27 October 2015

90 - 118
2.3 The weighting points in the ED scorecard represent the maximum number of points possible for each of the criteria.

2.4 The ICT sector has set the target of 5% Net Profit After Tax (NPAT) for Enterprise Development to accelerate transformation in the sector by developing black owned ICT companies. The Enterprise Development spend shall include financial and non-financial spend on enterprises including transfer of business skills to black owned ICT businesses in order to grow the sector.

3. Key Measurement Principles

The ICT Sector recognises that key to BEE in the sector is the establishment of a viable entrepreneurial base, and therefore commit to the following

3.1 General principles:

3.1.1 Measured Entities receive recognition for any Qualifying Enterprise Development Contributions that are quantifiable as a monetary value using a Standard Valuation Method.

3.1.2 Qualifying Enterprise Development Contributions of any Measured Entity are recognisable cumulatively:

3.1.2.1 From the commencement date of this statement, or an earlier date chosen by the Measured Entity (the Inception Date), until the date of measurement

3.1.2.2 The inception date chosen by the Measured Entity must not be earlier than 5 years before the commencement date of this statement, and binds the Measured Entity for the duration of this statement

3.1.2.3 No portion of the value of any Qualifying Enterprise Development Contribution that is payable to the beneficiary after the date of measurement can form part of any calculation under this statement

3.2 Recognition of Enterprise Development Contributions:

3.2.1 Enterprise Development Contributions consist of monetary or non-monetary, recoverable or non-recoverable contributions actually initiated and implemented in favour of beneficiary entities by a Measured Entity with the specific objective of assisting or accelerating the development sustainability and ultimate financial and operational independence of that
This is commonly accomplished through the expansion of those beneficiaries' financial and/or operational capacity.

3.2.2 The full value of Category A Enterprise Development Contributions, adjusted using the Benefit Factor, multiplied by 1,25 is recognisable.

3.2.3 The full value of Category B Enterprise Development Contributions is recognisable.

3.2.4 Recognition of Enterprise Development Contribution is limited to Qualifying Enterprise Development Contributions made to beneficiary entities. However, historical contributions to non-qualifying beneficiaries are considered as Qualifying Enterprise Development Contributions if:

3.2.4.1 Those contributions were initiated by the Measured Entity in favour of the beneficiary on the understanding that the beneficiary, as a result of those Enterprise Development Contributions, would over time meet the requirements of a beneficiary entity. For the purposes of this paragraph -

3.2.4.1.1 contributions commenced before the commencement date of the ICT Codes, must be shown to have involved agreement between the Measured Entity and the beneficiary that the support received be used, at least in part, for the purposes of improving the beneficiary’s overall BEE compliance level; and

3.2.4.1.2 contributions commenced after the commencement date of the ICT Codes, must be in terms of a written agreement between the Measured Entity and the beneficiary recording that support received be used, at least in part, for the purposes of meeting the definitional requirements of a beneficiary entity; and

3.2.4.2 the beneficiary has met the definitional requirements of a beneficiary entity.

3.2.5 The following is a non-exhaustive list of Enterprise Development Contributions:

3.2.5.1 Grant Contributions to beneficiary entities;

3.2.5.2 Investments in beneficiary entities;

3.2.5.3 Loans made to beneficiary entities;

3.2.5.4 Guarantees given or security provided on behalf of beneficiaries;

3.2.5.5 Credit facilities made available to beneficiary entities;

3.2.5.6 Direct costs incurred by a Measured Entity in assisting and hastening development of beneficiary entities;
3.2.5.7 Overhead costs of a Measured Entity directly attributable to Enterprise Development Contributions;

3.2.5.8 Enterprise Development or developmental capital advanced to beneficiary entities;

3.2.5.9 Preferential credit terms granted by a Measured Entity to beneficiary entities;

3.2.5.10 preferential terms granted by a Measured Entity in respect of its supply of goods or services to beneficiary entities;

3.2.5.11 contributions made to settling service costs relating to the operational or financial capacity or efficiency levels of beneficiary entities:

3.2.5.12 payments made by the Measured Entity to third parties to perform enterprise development on the Measured Entity’s behalf;

3.2.5.13 discounts given to beneficiary entities in relation to the acquisition and maintenance costs associated with the grant to those beneficiary entities of franchise, licence, agency, distribution or other similar business rights;

3.2.5.14 the creation or development of capacity and expertise for beneficiary entities needed to manufacture or produce goods or services previously not manufactured, produced or provided in the Republic of South Africa;

3.2.5.15 facilitating access to credit for beneficiary entities without access to similar credit facilities through traditional means owing to a lack of credit history, high-risk or lack of collateral;

3.2.5.16 provision of training or mentoring to beneficiary entities which will assist the beneficiary entities to increase their operational or financial capacity and

3.2.5.17 the maintenance by the Measured Entity of an enterprise development unit which focuses exclusively on support of beneficiary entities or candidate beneficiary entities.

3.2.6 Enterprise Development Contributions consist of support and fostering of new and existing black-owned, black-empowered and black-engendered SMME’s through the following initiatives:

3.2.1.1 Using incubation with the assistance of institutions of higher learning in order to develop sustainable enterprises in the sector;

3.2.1.2 Introducing formal and informal entrepreneurship programmes particularly using available resources in order to support education campaigns;
3.2.1.3 Providing skills development, training and mentoring in order to develop management skills through partnerships and skills transfer.

3.2.7 The creation or development of the capacity of beneficiary entities which will enable them to manufacture and produce goods or provide services previously not available in the Republic of South Africa, may constitute an Enterprise Development Contribution.

3.2.8 New projects promoting beneficiation may constitute an Enterprise Development Contribution.

3.2.8 Provision of preferential credit facilities to a beneficiary entity by a Measured Entity may constitute an Enterprise Development Contribution. Examples of such contributions include without limitation

3.2.8.1 provision of finance to beneficiary entities at lower than commercial rates of interest;

3.2.8.2 relaxed security requirements or absence of security requirements for beneficiary entities unable to provide security for loans; and

3.2.8.3 settlement of accounts with beneficiary entities over a shorter period of time in relation to the Measured Entity’s normal payment period, provided the shorter period is no longer than 10 days;

3.2.9 providing training or mentoring to beneficiary communities by a Measured Entity. (Such contributions are measurable by quantifying the cost of time (excluding travel or commuting time) spent by staff or management of the Measured Entity in carrying out such initiatives. A clear justification, commensurate with the seniority and expertise of the trainer or mentor, must support any claim for time costs incurred).

3.2.9.1 Maintaining an enterprise development unit by the Measured Entity. (Only that portion of salaries and wages attributable to time spent by the staff in, and the other expenses related to, promoting or implementing enterprise development constitute contributions.)

3.2.9.2 Payments made by the Measured Entity to third parties to perform enterprise development on the Measured Entity’s behalf.

4. Measurement of Qualifying Contributions

Qualifying Contributions are measurable using the formula “A” in Annexure 600(B)

5. The Benefit Factor Matrix
The Minister of Trade and Industry may from time to time, by notice in the
gazette, revise or substitute the Benefit Factor Matrix. Any changes will only be applicable to Compliance Reports prepared for a Measured Entity in respect of the first 12-month period following the gazetting of a revision or substitution.]

Arrangement of this statement

1. Objectives of this statement
2. The SED scorecard
3. Key Measurement Principles
4. Measurement of Socio-Economic Development Contributions
5. The Benefit Factor Matrix

1. Objectives of this Statement

The objectives of this statement are to specify:

1.1 the Socio-Economic Development (SED) and Sector Specific Contributions scorecard;
1.2 the key measurement principles applicable when calculating Socio-Economic Development Contributions; and
1.3 the formula for calculating the individual criteria specified in the SED scorecard.

2. The SED Scorecard

2.1. The Net Profit after Tax (NPAT) or average target applies unless:

2.1.1 the company does not make a profit last year or on average over the last five years
2.1.2 the net profit margin is less than a quarter of the norm in the industry.

2.2 If the Turnover is to be used, the target will be set at:

2.2.1 $1.5 \% \times \text{Indicative Profit Margin (NPAT/Turnover)} \times \text{Turnover}$

2.2.2 Indicative profit margin is the profit margin in the last year where the company’s profit margin is at least one quarter of the industry norm.

2.3 The following table represents the criteria and method used for deriving a score for Socio-Economic Development under this statement:

<table>
<thead>
<tr>
<th>Criteria</th>
<th>Weighting Points</th>
<th>Compliance Target</th>

</thead>
<tbody>
<tr>
<td><strong>[Average]</strong> annual value of all Socio-Economic Development Contributions by the Measured Entity as a percentage of the target</td>
<td>12</td>
<td>1.5% of NPAT</td>
</tr>
</tbody>
</table>

2.4 The weighting points in the SED scorecard represent the maximum number of points possible for each of the criteria.

2.5 The ICT sector recognizes that bridging the digital divide requires enterprises to undertake certain obligations in terms of access to ICTs so as to improve the lives of the people. Such programmes could be in the form of providing ICTs in education, health and programmes aimed at enhancing the lives of black communities or people. Consideration will also be to enterprises operating within the regulated sub-sectors, to the existing license obligations placed on these enterprises.

3. **Key Measurement Principles**

3.1 General principles:

3.1.1 Measured Entities receive recognition for any Socio-Economic Development Contributions that are quantifiable as a monetary value using a Standard Valuation Method.

3.1.2 Socio-Economic Development Contributions of any Measured Entity are recognisable [cumulatively] annually:

3.1.2.1 from the commencement date of this statement, or an earlier date chosen by the Measured Entity (the Inception Date), until the date of measurement
3.1.2.2 The inception date chosen by the Measured Entity must not be earlier than 5 years before the commencement date of this statement, but binds the Measured Entity for the duration of this statement.

3.1.2.1 No portion of the value of any Socio-Economic Development contribution that is payable to the beneficiary after the date of measurement can form part of any calculation under this statement.

3.2 Socio-Economic Development Contributions:

3.2.1 Socio-Economic Development Contributions consist of monetary or non-monetary contributions actually initiated and implemented in favour of beneficiaries by a Measured Entity with the specific objective of facilitating income generating activities for targeted beneficiaries and sustainable access to the economy for those beneficiaries.

3.2.2 The full value of Socio-Economic Development Contributions made to beneficiaries is recognisable if at least 75% of the value directly benefits black people.

3.2.3 If less than 75% of the full value of Socio-Economic Development Contributions directly benefits black people, the value of the contribution made multiplied by the percentage that benefits black people, is recognisable.

3.2.4 The following is a non-exhaustive list of Socio-Economic Development Contributions:

3.2.4.1 grants Contributions to beneficiaries of Socio-Economic Development Contributions:

3.2.4.2 guarantees given or security provided for beneficiaries:

3.2.4.3 direct costs incurred by a Measured Entity in assisting beneficiaries;

3.2.4.4 overhead costs of a Measured Entity directly attributable to Socio-Economic Development Contributions;

3.2.4.5 developmental capital advanced to beneficiary communities;

3.2.4.6 preferential terms granted by a Measured Entity for its supply of goods or services to beneficiary communities;

3.2.4.7 payments made by the Measured Entity to third parties to perform socio-economic development on the Measured Entity’s behalf;

3.2.4.8 subject to paragraph 3.2.5[.1], provision of training or mentoring to beneficiary communities which will assist them to increase their financial capacity; and
3.2.4.9 subject to paragraph 3.2.[5.2] 6, the maintenance by the Measured Entity of a socioeconomic development unit which focuses only on support of beneficiaries and beneficiary communities.

3.2.5. providing training or mentoring to beneficiary communities by a Measured Entity. (Such contributions are measurable by quantifying the cost of time (excluding travel or commuting time) spent by staff or management of the Measured Entity in carrying out such initiatives. A clear justification must support any claim for time costs incurred, commensurate with the seniority and expertise of the trainer or mentor).

3.2.6 Maintaining a socio-economic development unit by the Measured Entity. (Only that portion of salaries and wages attributable to time spent by the staff in, and the other expenses related to, promoting and implementing socio-economic development constitute contributions.)

3.2.7 Payments made by the Measured Entity to third parties to perform socio-economic development on the Measured Entity’s behalf.

3.2.8 A measured entity who as a result of sector legislation is subject to obligations aimed at enhancing the socio-economic development of black people, and/or annual payments to a body tasked with socio economic development may count that contribution as part of its compliance with the target.

4. Measurement of Socio-Economic Development Contributions

Socio-Economic Development Contributions are measurable using the formula in Annexure [7] 500 (B) As amended from time to time.

5. The Benefit Factor Matrix

The Minister of Trade and Industry may from time to time, by notice in the gazette, revise or substitute the Benefit Factor Matrix. Any changes will only be applicable to Compliance Reports prepared for a Measured Entity in respect of the first 12-month period following the gazetting of a revision or substitution.
1. Statement 800: the framework for the QSE scorecard and exempted Micro-enterprises

1.1 Objectives of this statement

1.1.1 The objectives of this statement are to:

1.1.1.1 specify the Elements of B-BBEE measurable under the Qualifying Small Enterprise (QSE) Scorecard;

1.1.1.2 specify the QSE Scorecard;

1.1.1.3 specify the principles in the Statements (100 - 700) applicable to Qualifying Small Enterprises.

1.2 Eligibility as a QSE

2.1.1 Any enterprise with an annual Total Revenue of between R5million and R35million qualifies as a QSE, if its qualification does not result from circumvention of the ICT Codes.

1.3 The QSE Scorecard

The following table represents the QSE Scorecard and contains the Elements of the scorecard and the Weightings for each element:

1.3.2 A QSE must select any four of the seven Elements of B-BBEE for the purposes of measurement under the QSE Scorecard. If a QSE does not
make a selection, its four best element scores will be used for the purposes of measurement.

1.3.3 A QSE will be scored in proportion to the extent that it meets the compliance targets for those four elements.

1.3.4 The Weighting points in respect of any element in the scorecard represent the maximum number of points possible for each of the criteria.

1.3.5 Wherever a Standard Valuation Method applies to measuring an indicator, the same standard should apply, as far as reasonably possible, in all other applicable calculations in this statement.

1.3.6 The Adjusted Recognition for Gender must be used for the purposes of calculating the Employment Equity, Skills Development and Management Control element of the QSE scorecard.

1.3.7 The B-BBEE compliance of a QSE must be determined in accordance with Code 000.

1.3.8 Any matter concerning the application of the QSE scorecard that is not dealt with explicitly in this scorecard must be dealt with in terms of ICT Codes 100-700.

[1.4 Transitional period

1.4.1 For the first year after the commencement of this statement, a Measured Entity may elect to use -

1.4.1.1 the QSE Scorecard; or;

1.4.1.2 The transitional Scorecard

1.4.2 Thereafter, all BEE compliance measurement under the ICT Codes for QSEs is subject to the use of the QSE Scorecard or, if applicable, a Sector Code.

1.4.3 The transitional scorecard assigns a BEE Status based on the Ownership and Management Control of the entity calculated in terms of the formula below;

\[ A = B \times 1.18 \]

Where

\( A \) is the indicative BEE Status during the transitional period

\( B \) is the total score achieved under Code series 801 and 802 ]

| 2.1.4.2 | Involvement in the ownership of the Enterprise by black Participants in Employee Ownership Schemes, Cooperatives or Broad-Based Ownership Schemes | 1 | 10% |

**[2.2 Key measurement principles**

**2.2.1 General principles:**

2.2.1.1 An Enterprise receives points for participation by black people in its rights of ownership, using the QSE ownership scorecard. Black people may hold their rights of ownership in a Measured Enterprise as direct Participants or as Participants through a business such as:

- a company with shares;
- a close corporation;
- a co-operative;
- any form of juristic person recognised under South African law;
- a partnership or other association of natural persons;
- an Employee Share Ownership Scheme;
- a Broad-Based Ownership Scheme; and
- a trust.

2.3 Realisation Points

2.3.1 Ownership Fulfilment occurs:

2.3.1.1 on the release of all black Participants in a Measured Enterprise from all third-party rights; or

2.3.1.2 if black Participants have never been subject to any third-party rights.

2.3.1.3 A minimum score of 7 points for Net Value is a requirement for the award of the Ownership Fulfilment point.

2.4 The bonus points

2.4.1 A Measured Enterprise with 30% black Economic Interest, can receive a maximum of 2 bonus points for a 10% holding of Economic Interest by black women.

2.4.2 A Measured Enterprise with 30% black Economic Interest, can receive a maximum of 1 bonus point for a 10% holding of Economic Interest by black Participants in:

2.4.1.1 Employee Share Ownership Schemes;

2.4.1.2 Co-operatives; or

2.4.1.3 Broad-Based Ownership Schemes.

2.4.3 A Qualifying Small Enterprise may benefit from any of the other statements in the Code series 100. When electing to benefit from any of those statements, the provisions of those statements apply to the Qualifying Small Enterprise.

2.4.4 The Qualifying Small Enterprise Ownership Scorecard remains applicable to Qualifying Small Enterprise’s even if they benefit from other statements in the Code series 100.
2.4.5 Any interpretation or calculation of a QSE’s score for ownership must be made in accordance with statement 100.

2.4.6 Without limiting the generality of the preceding clause, the following matters dealt with in Code 100 apply expressly to QSEs -

2.4.6.1 The Flow-Through Principle

- Specific rules on certain types of enterprises (Broad-Based Ownership Schemes; Employee Share Ownership Schemes and Trusts).

2.2 KEY MEASUREMENT PRINCIPLES AND SUB-MINIMUM REQUIREMENTS

2.2.1 General principles:

2.2.2 Key Measurement Principles and sub-minimum requirements under statement 100 are applicable to this statement.

2.2.3 Any interpretation or calculation of a QSE score for ownership must be made in accordance with statement 100.

</tr>
</tbody>
</table>

4.2 Key measurement principles

4.2.1 A Measured Entity receives points in proportion to the extent that it meets the targets for participation of black people and black women at Management level.

4.2.2 Wherever possible, a Measured Entity must use the data that it files with the Department of Labour under the Employment Equity Act in calculating its score under the employment equity scorecard.
4.2.3 No Measured Entity shall receive any points under the Employment Equity Scorecard unless they have achieved a sub-minimum of 40% of each of the targets set out on the Employment Equity Scorecard in respect of the both five year periods.

4.2.4 In order for a measured entity to achieve bonus points at a particular level, the entity needs to meet or exceed the EAP targets.

4.2.5 A Measured Entity exempt from filing returns must compile its data for calculating its score under the Employment Equity Scorecard using the guidelines set out in the Employment Equity Act and its EE Regulations.

4.2.6 Black women employees in each Measurement Category qualify for enhanced recognition using the Adjusted Recognition for Gender.

4.3 Calculating the Adjusted Recognition for Gender

The calculation of the Adjusted Recognition for Gender is as follows:

\[
A = \frac{B}{2} + C
\]

Where

A is the Adjusted Recognition for Gender

B is the percentage of employees in the measurement category that are black people

C is the percentage of employees in the measurement category that are black women
