1 Introduction

- 1.1 This schedule sets out the Charges for the UBA Service at the date the UBA Terms takes effect and provides a mechanism to make any adjustments to the Charges.
- 1.2 References to clauses or sections are references to clauses or sections in this UBA Price List unless expressly provided otherwise. The definitions set out in the UBA General Terms, the UBA Service Description and the UBA Operations Manual apply to the extent that they are not expressly modified by or inconsistent with the context of this UBA Price List.
- 1.3 **Existing Lines**, in relation to charges for items 2.1 to 2.8, means until 3 years from Separation Day a subscriber line, other than a Telecom subscriber line, being supplied with a UBA service by the Access Seeker or an Other Service Provider before Separation Day.
- 1.4 **Geographically Averaged UCLL uplift** means the **Geographically Averaged Price** for Chorus's full unbundled copper local loop network service set out in Service Component 2.1 (MPF Service Monthly Charge) in Schedule 2 to the UCLL General Terms (namely, the UCLL Price List) of the Commission's UCLL Standard Terms Determination, as amended from time to time.
- 1.5 **New Lines**, in relation to charges for items 2.1 to 2.8, means until 3 years from Separation Day, any Telecom subscriber line, or, for any Access Seeker or Other Service Provider, a subscriber line being supplied with a new instance of the UBA service on or after Separation Day (that is, where charge items 1.1 to 1.12, a new connection or UBS to UBA transfer, would be applied to that subscriber line).
- 1.6 **Separation Day** has the meaning set out in section 69B of the Act as amended by s51 of the Telecommunications (TSO, Broadband, and Other Matters) Amendment Act 2011.

2 Charges

- 2.1 Each Charge is described in the table below as being either a Core Charge ('C') or a Sundry Charge ('S').
- 2.2 **Core Charges** are for the core components of the UBA Service.
- 2.3 **Sundry Charges** are for other components of the UBA Service.
- 2.4 All Charges expressed as "price on application" (**POA**) must reflect the underlying cost of providing the resources and project management skills required to provide the service. For all POA price items, Chorus must, if requested by the Access Seeker, use all reasonable endeavours to provide the Access Seeker with two or more competitive quotes.
- 2.5 Charges will become due and payable and will be invoiced in the manner described in the table below.
- 2.6 The provisions in the UBA General Terms relating to invoicing and payment of Charges apply.
- 2.7 All prices in this schedule exclude GST.
- 2.8 All adjustments to Charges must be approved by the Commission.

3 Adjustment to Charges for Labour or Input Costs

- 3.1 Chorus must, subject to the approval of the Commission, pass through changes in costs by increasing or decreasing Charges as follows:
- 3.1.1 Each year, on 1 November (**Review Date**), Chorus must adjust the Charges that are shown in the Price List table below (in the column "Price Change Mechanism" and identified as "clause 3.1.1") by an amount equivalent to the percentage change (up or down) for the previous year in

the Labour Cost Index (Communication Services) Series Reference LCIQ.SE49J9 as published by Statistics New Zealand, or such successor index as may be designated by Statistics New Zealand from time-to-time.

For the purpose of this clause 3.1.1, the previous year is the period which commences on the quarterly index date immediately prior to the previous Review Date (or, for the first review, the date of the Commission's determination) and ends on the quarterly index date immediately prior to the Review Date.

3.1.2 Where:

- (a) the cost of providing a Service Components with a Charge that is shown in the Price List table below (in the column "Price Change Mechanism" and identified as "clause 3.1.2") increases or decreases; and
- (b) that increase or decrease is due to changes in input costs charged to Chorus pursuant to contractual obligations by its field service company contractors,

Chorus must immediately calculate the Charge relating to that Service Component to reflect the increase or decrease in costs.

3.1.3 When adjusting a Charge under clause 3.1.1 Chorus must also review all Charges which are POA and provide a fixed price where this is practicable.

3.2 Immediately following the calculation of an adjustment under clause 3.1 Chorus must give notice to the Commission of the calculation, including:

- 3.2.1 the figures used in the calculation for the adjustment;
- 3.2.2 the calculations undertaken for the adjustment; and
- 3.2.3 a description of the reasons for that adjustment made

(Adjustment Calculation);

3.3 After an Adjustment Calculation has been approved by the Commission (Approval Date), Chorus must:

- 3.3.1 notify Access Seekers of the adjustment; and then;
- 3.3.2 activate the new Charge arising from any Adjustment Calculation in its billing systems within 30 Working Days after the Approval Date (**Activation Date**).

4A Formula for "Connection Only"

4A.1 No charge applies to this Service Component for "Connection only" when an Access Seeker's end-user signs up to the term contract associated with a free installation. In addition, no charge applies where during the term contract the Access Seeker's end-user is transferring to:

- 4A.1.1 another Chorus broadband service that is not based on the UBA Service and that Access Seeker's end-user remains on the same DSLAM (for example, the Access Seeker's end-user transfers from the UBA Service to a commercial unbundled bitstream service or another broadband service supplied by Chorus); or
- 4A.1.2 another service provided by Chorus which is supplied through the same Access Seeker, (for example the Access Seeker transfers its end-users from the UBA Service to the Unbundled Copper Local Loop Service); or
- 4A.1.3 another Access Seeker where that Access Seeker is served off the same Chorus DSLAM as the end-user that is transferring to another service.

4A.2 For the avoidance of doubt, in cases where the Access Seeker's end user terminates their broadband service that was wholly based on the UBA Service within 12 months of the commencement of service, an early termination charge for this Service Component applies. The early termination charge is calculated as

follows:

$$(T \text{ months} - A) / T \times C$$

Where A = the number of months completed of the term contract associated with a free installation

T = the number of months of the term contract associated with a free installation

C = the Early Termination Charge (before any pro-rating) associated with a free installation, which is \$141.90.¹
