Subject: Attention Mr Davis Kgosimolao Moshweunyane

Information Memorandum For International Mobile Telecommunications Spectrum Assignment

-- none of these frequencies should be allocated until such time as there is evidence that they are safe and not harmful to humans or the environment, and that ICASA is hereby duly informed that there is no such existing evidence of safety, and should they allow these spectrum to be allocated for use, they do so in defiance of the precautionary principal, without having conducted due diligence, and knowing that there is NO evidence of their safety
